2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 1 and after October 31 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

This application is intended to renew lease contract 1231 which expired on December 31st, 2024.

AUTHORITY TO FILE:

Dan Mori signed the application. Mr. Mori has the authority to file this agreement because he is the owner of water right 51-2151B, along with Kathy Mori according to Department records. Mr. Mori was designated the lessor in attachment 1A included with the application.

WATER RIGHT VALIDITY:

The WR was decreed by the SRBA court in 2000. According to Google Earth Imagery the property was likely not irrigated from 2001-2014. During the review of the previous lease application the applicant provided information indicating they attempted to irrigate the place of use (POU) in 2015. This indicates the WR holder likely resumed beneficial use. According to Google Earth Imagery the POU was not irrigated from 2016-2019 or 4 years of possible nonuse. The WR was then leased into the WSB from 2020-2024. Therefore, there is enough evidence available to the bank to conclude WR 51-2151B is likely not subject to forfeiture and can be leased into the WSB.

INJURY TO OTHER WATER RIGHTS:

There are no injury concerns leasing this WR. Any injury concerns will be evaluated during the review of the packaged rental application or any other rental application against the lease.

ENLARGEMENT OF USE:

There are no other irrigation WR's overlapping the proposed POU. Water right 51-7025B diverts from the same POD but is not limited with the proposed right when combined. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The WR POD is within Administrative Basin 51. The Western Regional Manager was contacted for comment on January 17, 2025. If no response is received it is assumed there are no concerns with the applicant's proposal.
