Application 88820 proposes to add a new pump station on the lower Lemhi River as an authorized point of diversion for water rights 74-1835 and 74-2047L. These rights are currently diverted through the L-9 Ditch. Attached is a draft transfer approval for Transfer 88820. I have created a condition to assist the watermaster in administering these rights each year (Condition #5 on water right 74-1835 and Condition #6 on water right 74-2047L). Please review the draft transfer and the proposed condition. If you have any questions or concerns about the proposed condition, please contact me prior to June 21, 2024. If there are no concerns with the proposed condition, I will move forward with approving the transfer in late June.
