WATER SUPPLY BANK LEASE CONTRACT No. 1934

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water right 22-11149 is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.
13. Water right 22-11149 is based upon an enlargement of Right No. 22-2184 pursuant to Section 42-1426, Idaho Code.
14. The unleased portion of water right 22-2184 is limited to the irrigation of 295.7 acres in a single irrigation season.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.

- B. Please provide a description of the current water diversion and delivery system.

Deep well pump.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

MEMORANDUM FOR WSB LEASE APPLICATION # 3101

To: Water Right No(s). 22-2184, 22-2230, 22-7075, 22-11147, 22-11149

From: Skyler Cheever, Water Resource Agent, Sr

Date: 12/6/2024

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 3101 was sent in by Richard Smith and received on November 1st, 2024. This application will supersede lease contract 1428. The applicant proposes to reduce the leased amounts of water rights (WR) 22-2184, 22-2230, 22-7075, 22-11147, and 22-11149 due to a currently pending transfer moving and changing the ownership for 28 acres of WR 22-7075. The current lease contract expires on December 31st, 2025. The applicant proposes this lease period be from 2024-2028. The proposed points of diversion (POD'(s) are within the Snake River Basin Moratorium Area, Eastern Snake Plain Aquifer Groundwater Management Area, Madison Groundwater District, and Trust Water Area.

AUTHORITY TO FILE:

Richard Smith signed the application. Mr. Smith has the authority to file this agreement because he is the current owner of WR's 22-2184, 22-2230, 22-7075, 22-11147, and 22-11149 according to Department ownership change records.

WATER RIGHT VALIDITY:

The water rights are currently leased into the WSB until the end of 2025. Therefore, enough information was available to the bank during the last application review to conclude the WR's were likely not lost to forfeiture. It is reasonable to assume they are still likely not lost to forfeiture and can be leased into the bank for the new proposed lease period.

INJURY TO OTHER WATER RIGHTS:

There are no injury concerns with leasing these rights into the bank. Any injury concerns would be evaluated with the review of any rental application against the lease.

ENLARGEMENT OF USE:

WR's 22-2184, 22-2230, 22-7075, 22-11147, and 22-11149 when combined are limited to 10.17 cfs when combined. Another WR, 22-7507, authorizes irrigation of acres not overlapping the other WR's but shares one POD. Because 22-7507 shares a POD with 22-2184, 22-2230, 22-7075, 22-11147, and 22-11149 all rights when combined are limited to 10.85 cfs.

Since 22-7507's place of use (POU) does not overlap with 22-2184, 22-2230, 22-7075, 22-11147, and 22-11149 no enlargement concerns are evident if the WR is unstacked and not leased. However, to ensure there isn't an enlargement of 22-7507 the rentable diversion rate will be reduced proportionally to the total combined limit of 10.85 cfs. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed PODs are within Administrative Basin 22 and Water District 100. The Watermaster and Eastern Regional Manager were contacted for comment on December 11, 2024. No comment was received, it is assumed there are no concerns with the application proposal.

Re: Water Supply Bank Applications for Richard F. Smith

Dear Mary,

Please find enclosed 5 WSB Lease Applications and a check in the amount of \$500 for the lease application fee.

Currently, these rights are leased to the WSB under Lease Agreement 1428, which will expire at the end of 2025. The applicant has submitted an application for transfer to relocate 28 acres of water right 22-7075 to the City of Rexburg's municipal system, of which a portion of the 28 acres are currently enrolled in the water supply bank under the current lease agreement. The transfer application is still in the initial review process at the Eastern IDWR office. It has not yet been sent to advertising.

The enclosed applications are intended to supersede Lease 1428 to allow the water rights to be released from the Bank that are proposed to be transferred.

These rights have interesting relationships with each other. While they are not overlapping in acres, they do share a common place of use and the overall diversion rate is restricted by combined use limitations. Attached is a copy of our calculations to best represent the transfer application that is pending and the proposed water banking proportions to avoid any enlargement of the rights under the proposed applications. Please feel free to evaluate and make suggestions if you feel that these calculations merit some edits.

Please contact our office with any questions regarding these applications.

Thank you,
