Pursuant to Section 42-606 Idaho Code, this Watermaster's Annual Report shall be filed prior to the end of the watermaster's appointment for the current year, and kept in the office of the Idaho Department of Water Resources (IDWR). The Watermaster's Daily Diversion Records should be attached to this report if those records are not submitted electronically to IDWR.

Water District 29H  
2023 Watermaster Report  
December 28, 2023  
By: Kristin Evans

- The total volume (AF) of water delivered to water users in the district was 6,151.21 AF. This number is derived from the amount diverted through measured diversions and an estimate of water diverted by water users that divert less than five acres and do not require measuring devices to be installed. Estimates were calculated based on the acreage of the water right x 3.5 AF.
- Points of diversion that did not have measuring devices installed or water rights out of priority with the Snake River were curtailed. Water users were curtailed if their priority date was junior to the priority date being delivered on the Snake River. Junior water users who leased exchange water from the Tribe for mitigation were permitted to irrigate out of priority with the Snake River. 12 water users leased mitigation water from the Tribe.
- The total expenses for the district were \$22,199.00
- The total number of days I worked was 125 as of December 7th, 2023.
- Attached is the spreadsheet with my records of distribution and the Tribal delivery.
