SUBJECT: Completing BRBA Claim 11-7431

Dear claimants,

The Idaho Department of Water Resources (IDWR) received your Bear River Basin Adjudication (BRBA) water right claim 11-7431. We are returning your adjudication claim for the following reasons.

The claim you submitted was completed on the wrong form. The form it was completed on is specifically for Domestic and/or Stockwater purposes, which your water right is not. Also, the claim you submitted is missing aspects that are described on the water right license it is based on. Lastly, the claim does not include the required map.

Included with this letter is an updated 11-7431 claim. This claim is drafted on the correct claim form for the water right you are claiming. Everything on the claim form is the same as your draft except for the highlighted corrections. These highlighted corrections are included to match the water right license you are claiming that you had attached to your original claim. Also, I included a map based on the department's record of the water right. Outlined is the pond and the diversion locations.

Review the claim and map for accuracy. If everything looks good, please sign and date the document on the second page and mail it to the Preston Field Office at 325 E 600 S Suite 300, Preston ID 83263. **If you do not mail back this completed claim form and map by the deadline above, your original claim will be unacceptable and rejected.**

If you have any questions regarding this letter feel free to contact me. My telephone number is (208) 701-7200 and my email is christopher.holmes@idwr.idaho.gov.

Sincerely,

Christopher Holmes
Water Resources Supervisor
