Proof Report

2. 065 The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. 104 If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
4. R61 This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the lands above.

Comments:

1 lgraves 7/9/2002 Field Report Narrative
A 12" well equipped with a 25hp submersible pump supplies water to 81 acres via pipe, ditch and gravity irrigation. Applicant has agreed to use power records for determination of water use. Applicant is required to use all his surface water under Kuna-Mora Irrigation District before using water under this permit. No other rights are used. CFSA photo shows 81 acres, permit lists 88 acres and Arc View calculates 81 acres. 81 acres were recommended for licensing. Pump info was obtained from the installers, Tracy Pump Co., and Bill Strom at Mitchell Lewis and Staver, where the pump was purchased.

2 kwalker 7/29/2002 Rate of Diversion
Examiner found 400 gpm which I determined to be only 0.89 cfs, not 0.94 as examiner recommended. Use 0.89 for this license since that is theoretical based upon pump curve.

3 kwalker 9/16/2002 Place of Use
We requested a licensing amendment to add 0.4 acres in NWNE, S13 to this permit. The permit holder contacted me and said he did not own this property and did not want to add it to the proposed license. I have removed this property from the proposed license.

Dates and Other Information:

Licensed Date: 9/20/2002
Owner Name Connector: And
Water District Number: 63
Generic Max Rate Per Acre: 0.020
Generic Max Volume Per Acre: 4.5
Mitigation Plan: False
