Hi Tressa,

I hope you had a great weekend. We updated our project schedule, please see below the current dates for the road map we assembled.

Chemical review, threshold and testing standards	18 days	Wed 12/6/23	Fri 12/29/23	
Plan of Operations Draft	36 days	Mon 12/11/23	Mon 1/29/24	
System Maintenance Plan Draft	36 days	Mon 12/11/23	Mon 1/29/24	
Quality Assurance Plan Draft	36 days	Mon 12/11/23	Mon 1/29/24	
Submit Documents to DEQ	1 day	Tue 1/30/24	Tue 1/30/24	

Thanks,

Dillon Allen

Thank you Dillon. It was helpful to meet with everyone yesterday, we appreciate everyone's time and efforts. The plan will be that ISDA and DEQ will discuss point 1 below, and let you know when we are ready to provide comments back. In the meantime, please keep moving forward with points 2-5 in the roadmap.

Best regards,

Tressa

Hi Tressa,

Below is our answer to point number one on the road map. We are looking forward to the comments and conversation around it.

"Chobani is requesting a permit for a *Purified Food Grade Water* that can be used within the production facility. The water will be used in food contact applications only but not as a food ingredient. The purified food grade water will be in a distribution system separate from our potable water system."

Thank you ,

Dillon Allen

Subject: Road Map to Permit Purified Food Grade Water - Chobani

Importance: High

Hi All,

We would like to start off by thanking everyone for the collaborative efforts yesterday and coming to visit with us onsite. We feel that this is a great start to successfully being able to reuse water here at Chobani. I wanted to share the road map that we all put together. If there is any area that needs changes please let me know.

- 1.) Chobani, in a few sentences needs to tell the DEQ what we want to do with the water that the permit is for. Water users, and a name moving forward for the water source.
- 2.) Need to provide a chemical threshold / standard for the water testing.
- 3.) QAQC (quality assurance plan) draft to be created by Chobani and submitted for review
 - a. All test methods need to be agreed upon
- 4.) Plan of Operations draft to be completed by Chobani and submitted for review
- 5.) System Maintenance plan draft to be completed by Chobani and submitted for review
- 6.) Once we have established this base line ISDA will confirm with FDA that alignment is met for the path moving forward

Thank you again and we will be in touch soon to provide an answer for point number 1.

Dillon Allen
