HI, CARTER!! I just got another phone call from Bill Collins who is an attorney working on water right 63-00165H which has been claimed under A63-00165M... Mr. Collins said that you suggested that the property owners file their own claim on 63-00165H... Is this true? Will the water still be delivered through Farmer's Union if this property owner files his own claim? How should I number the new claim? Should it have the original number or a new beneficial use number?

I was under the impression that you were going to add this person's place of use once he paid all of his overdue assessments; I guess I misunderstood what you told me on the phone.

The property owners are supposed to come in to file their claim sometime soon. Please fill me in on what I need to know before they come in... if this person is not going to be able to convey his water through Farmer's Union I would really like to be able to tell him that so he can figure out how he is going to get his water.

Sorry to bother you with this. I know how much you dislike Farmer's Union problems at work but the adjudication must go on, right? Thanks for any insight you can give me. Kay

Re: Farmers Union Ditch Co., Ltd.
Claim No. A63-00165M

Dear Kay:

As you will recall, I visited with you last week regarding the above claim of Farmers Union which was filed in the Snake River Adjudication.

It would appear to me that there is a typographical error occurring in the claim. On page ten of the claim in paragraph 14, the recitation appears that the claim is based upon combining 63-00165A, 63-00165C, 63-00165E, 63-00165F and 63-00165H. The error I believe is with the listing of 63-00165H that appears in the attachment. The attachment states that this water right is based upon Transfer No. 1049. It should have read as being based upon Transfer No. 1059. Transfer No. 1049 was for a transfer occurring in the Pocatello area, Right No. 29-2352.

Transfer No. 1059 was a transfer of 0.1 cfs of water from the Boise City Canal Company. The water was to be diverted through the Farmers Union Ditch at its point of diversion and was for use upon Lot 7 of Roberts and Hill Subdivision. Lot 7 is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 14, T. 4 N., R. 1 E., B.M., Ada County, Idaho. Lot 7 comprises five acres. That five-acre parcel is not listed in the lands under the Farmers Union Ditch Company claim. and that listing should have appeared on page four of the claim.

I have previously corresponded with Carter Fritschley who happens to be the president of Farmers Union and advised him of my belief and am sending him a copy of this letter.

Unless I have made some mistake in my review of this water right, I would like this letter to be placed in the Farmers Union claim file so that the error can be corrected when the adjudication is completed.

Very truly yours,

ADDITIONAL INFORMATION

DATE: AUGUST 16, 2004

BY: MEL SCHULTE

The primary contact for Farmers Union is Gene Bailey, president (286-7318). Bert Johnson (939-6790) is their vice-president and ditch rider. Bert is very familiar with the delivery system and operation of the company. Both Gene and Bert assisted in the review of Farmers Union's boundary and place of use map.

Farmers Union delivers water in their system for a lot of entities and individuals other than their own shareholders. They assess and deliver water for Boise Valley Irrigation Ditch Co, Capital View Irrigation District and the users of the Jacobs right (63-123) in addition to their own water.

An issue that will likely be challenged and discussed is the ownership of the Jacobs right 63-123). In a 1916 contract Farmers was given one-third of the right and it appears that Capital View owns about one-third of the right. Who owns the other one-third is a mystery at this time and needs further review and verification. At this time we have recommended about one-third to Capital View and the remainder to Farmers Union. These recommendations are likely to change.

Another issue that could come up for discussion is the allocation of delivery loss. Measurements were done on several stretches of the Farmers Union canal to estimate delivery loss. Gene Bailey thinks Farmers Union should receive credit for all delivery loss rather than prorating it among the users because Farmers delivers all of the water. This issue will have to be resolved after the Jacobs right ownership issue is resolved. IT IS POSSIBLE FARMERS UNION WILL HAVE TO FILE ANOTHER BENEFICIAL USE CLAIM FOR DELIVERY LOSS.

The Boise Valley Irrigation Ditch Co boundary and place of use overlaps within the boundary of Farmers Union due to the fact Farmers Union canal delivers in the main canal 875 inches of Boise Valley water past the Boise Valley diversion head gate in Farmer's canal. These two companies should merge into one organization.

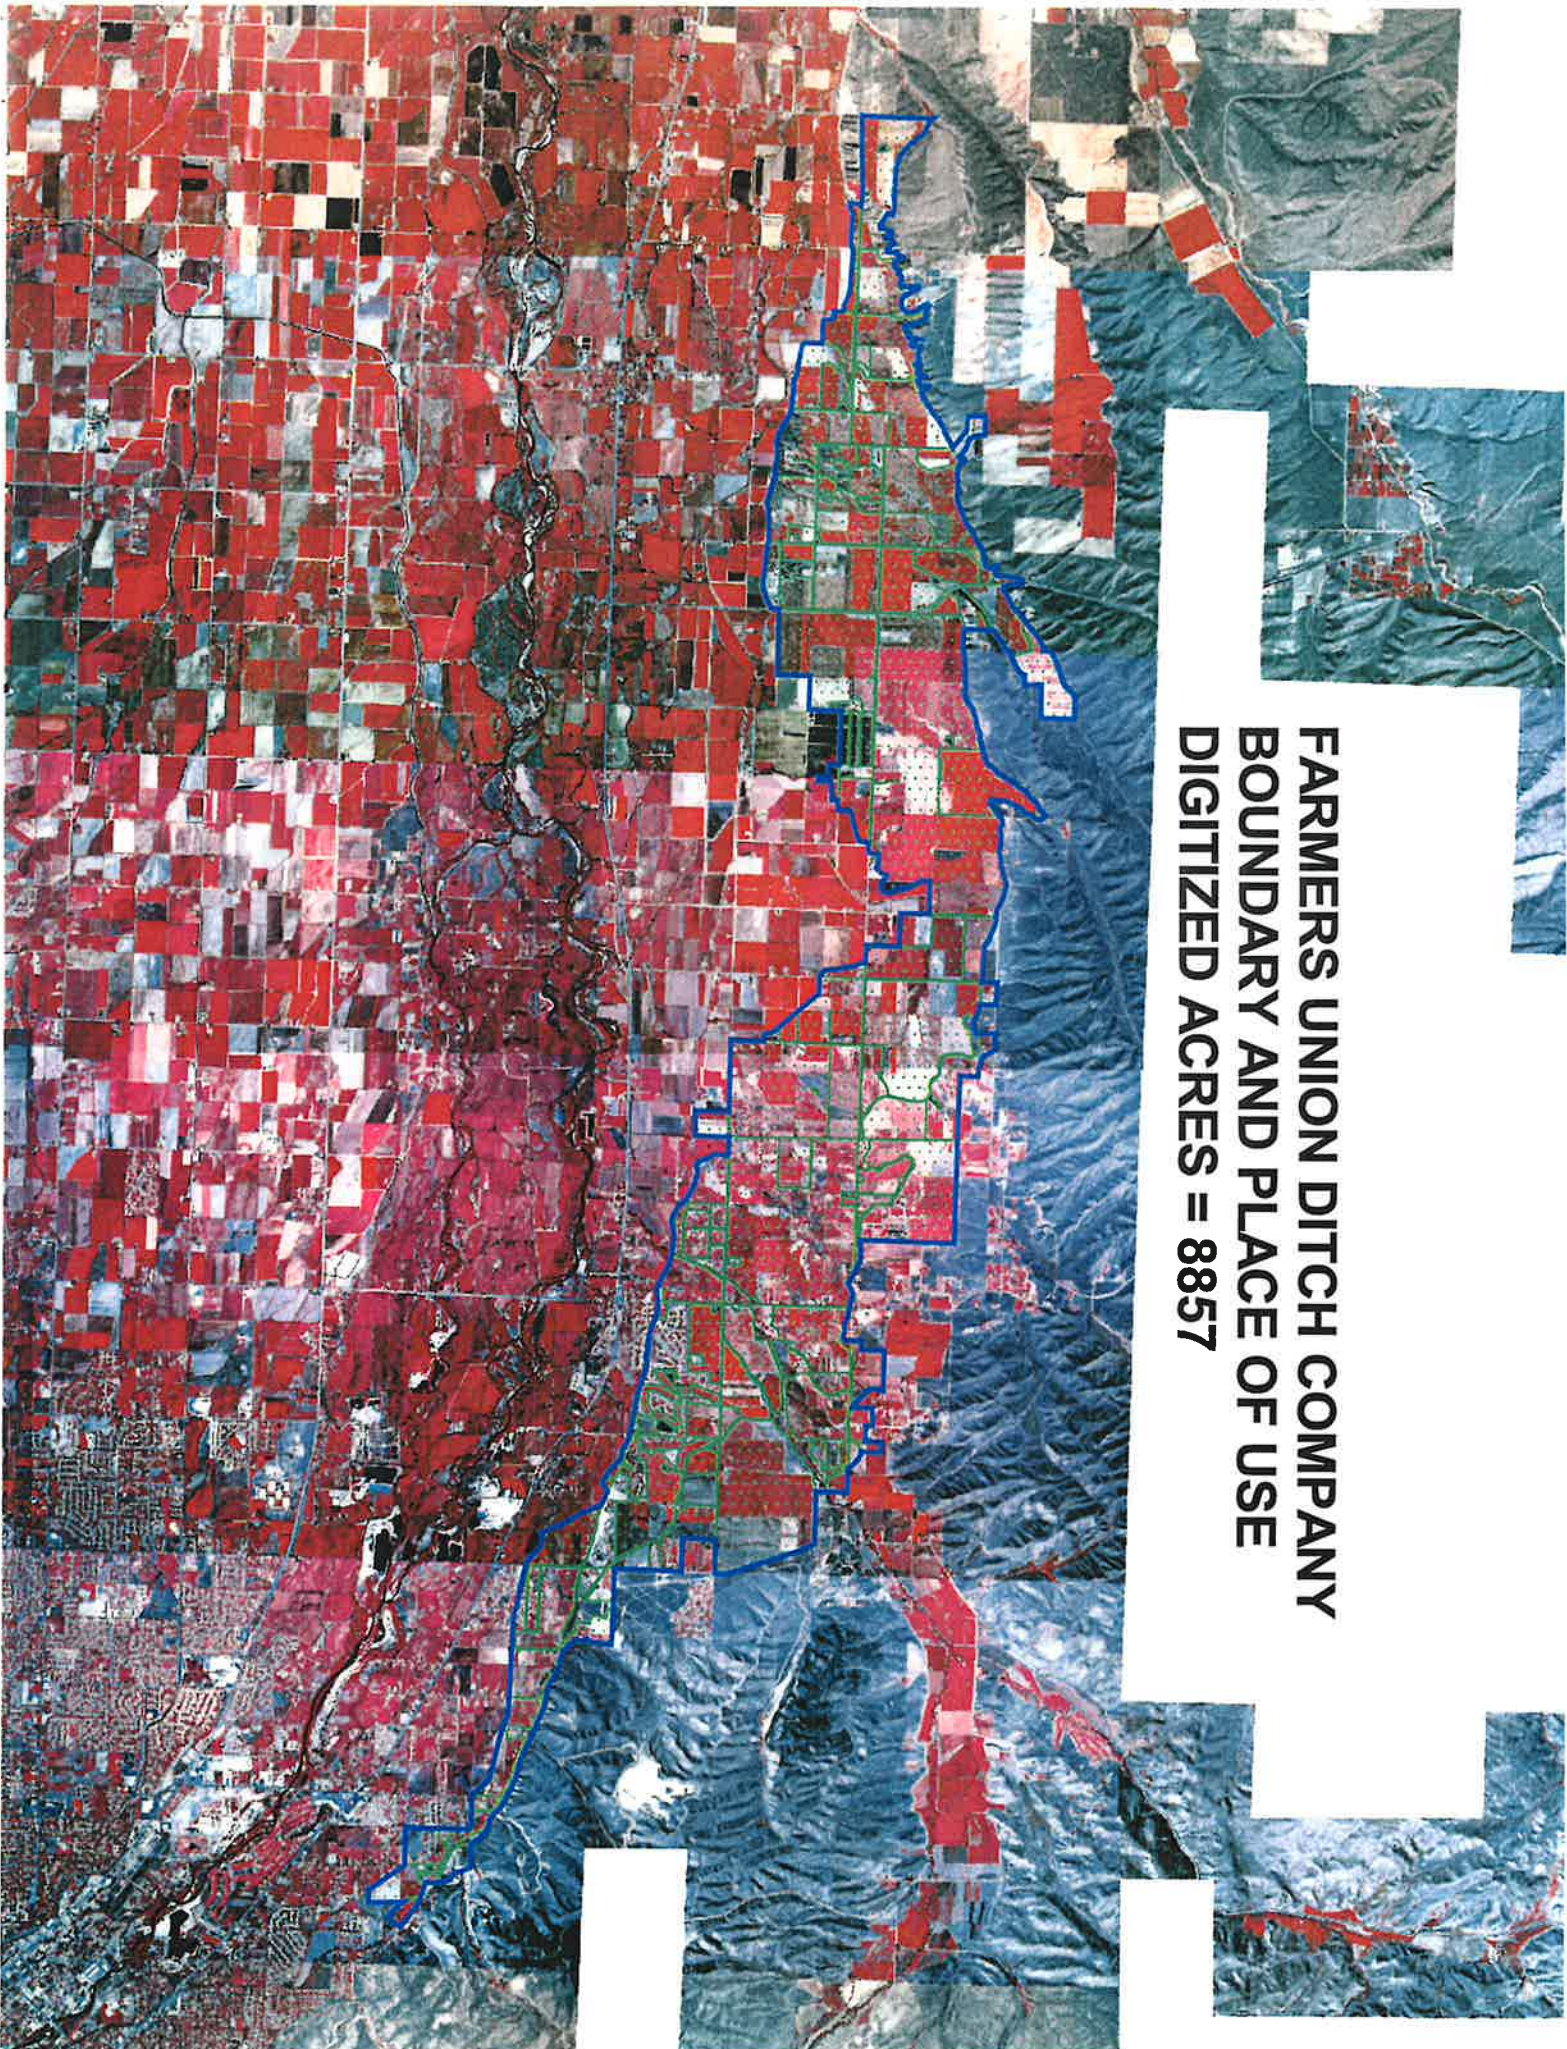

The POD for Farmers Union canal was determined by GPS.

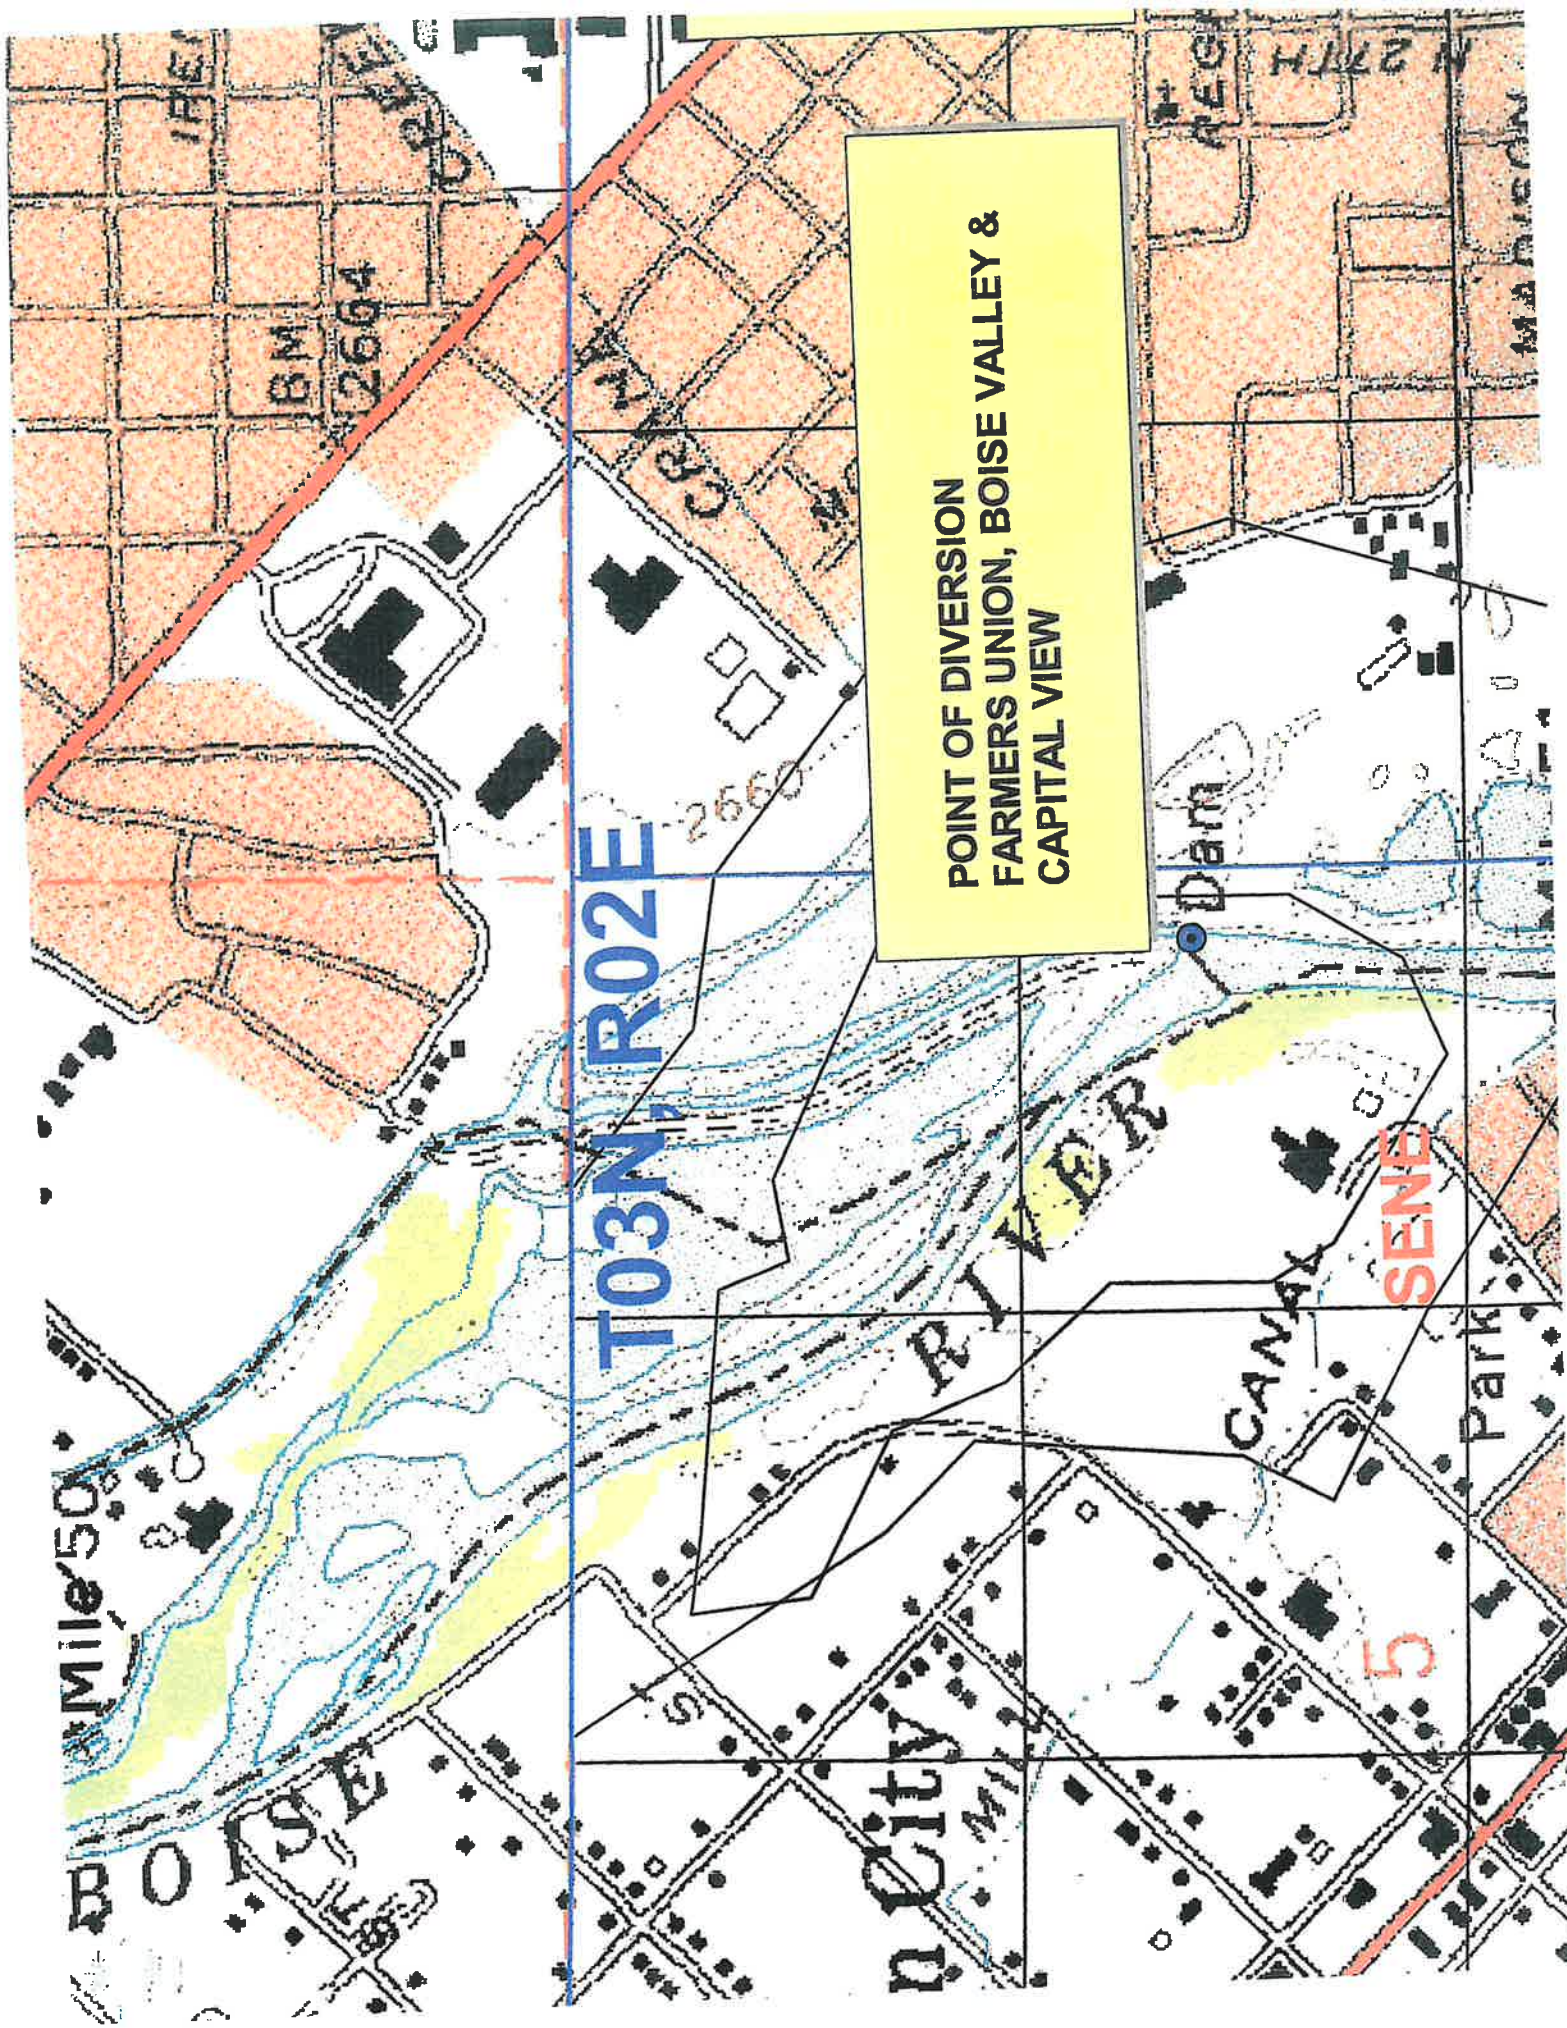

The acre limitation of 8394 acres is based on the claimed acres. The digitized acres total 8857 acres but this number might include some parcels that overlap with Boise Valley because the users are shareholders of both companies.

The total of the diversion rates recommended for Farmers decreed rights include some delivery loss but the exact amount of delivery loss is not known at this time.
