BOULDER LAKE RESERVOIR  
AREA 5306 ACRES  
CAPACITY 1200 AC. FT.

BOWLER CREEK DAM 34' HIGH CUT 6' DEEP

et al. 1991

THE

that said, said first and foremost, that he is the business employer to supervise the construction and take the amended survey of Boulder Lake Reservoir, by Roseberry Irrigation District, that said reservoir has been constructed under my supervision. That the initial point of the Amended Survey of the Reservoir is Station 12 from whence the corner no. 1 sections 22, 23, 24, and 27, Township 10 N. E. 4 E. R. 3 E., bears to the southeast, thence by courses and distances as more particularly described in accompanying field notes to the terminal point of Reservoir. That the Reservoir has an area of 93.06 acres at high water line which is the line of the Amended Survey. That the constructed Reservoir conforms to the accompanying map and field notes and that said map and field notes and that said map and field notes conform to the Amended Survey as made by me on August 29, 1918.

Y. M. H. W.

Sworn and subscribed to before me this 5<sup>th</sup> day of Sept., 1900.
