Water Right No. 95-16391

FOR DEPARTMENT USE ONLY

Preliminary check by _____ Fee = \$100 Received by NS # N045136 Date 12/30/24

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 95-16391 with the following:

Conditions of Approval

1. This right authorizes the watering of livestock directly from the stream without a diversion.
2. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the place of use.
4. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

Signed this 2nd day of January, 20 25

RE: Water Right Permit No. **95-16391**

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit(s) referenced above prior to issuing water right license(s). By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit(s) have been developed differently than described on your permit(s). Changes that do not increase the authorized use of water under the permit(s) can be requested and approved in accordance with Idaho Code § 42-211. Before license(s) can be issued, your permit(s) must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit(s):

 X Point(s) of Diversion: The Permit authorized two (2) PODs associated with development of the irrigation diverting system. Beneficial use field examination identified three (3) separate 24-hr impoundment ponds were constructed and in use by the Permit Holder. The amendment adds a 3rd POD associated with the lowest ponding with concrete headgate using 2x wood riser boards to impound stream water during the irrigation season of use. The legal description for the 3rd POD is the same as the other 2 PODs.

The enclosed Application for Amendment form(s) depicts the elements of the water right(s) as they will appear on the license(s) when issued. Please review the amendment form(s) carefully. If you concur with the information presented, **please sign and return the form(s) with the filing fee of \$100.00 within fourteen (14) days.**

If you have any questions, please call me at (208) 762-2817.

Sincerely,

Luke Bates
Sr Water Resource Agent
