PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 92-11097

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Julie Adams
Technical Records Specialist

Enclosure(s)

MEMORANDUM

Date: 4/7/2025
To: Permit 92-11097
From: Skyler Cheever – Water Resource Agent
Re: In-Field Examination Recommendation.

Water Right Permit 92-11097 was approved by the Department on January 16th, 2020, with a Proof Due Date of February 1st, 2025. A Statement of Completion for Proof of Beneficial Use was sent in by Justin and Crissa Murphy and received by the Department on January 6th, 2025, with the correct fee payment received the same date. The permit authorized domestic use for two homes, stockwater for 10 head mixed livestock, and the irrigation of 1.0 with a total diversion rate of 0.11 cfs. Therefore, this permit would qualify for an in-office examination.

After an initial examination of 2023 NAIP and October 2024 Google Earth Imagery development of one home, stockwater, and the irrigation of 1.0 acre could not be confirmed. The permit holder indicated in their Proof Statement water diverted from the unnamed streams is stored in three pondlike structures and flows into an undescribed amount of storage tanks. This system is slightly different from proposed system indicated on the Application for Permit. Unfortunately, none of the system is visible from any aerial imagery. Due to the complexity of the diversion system and lack of available imagery to confirm the majority of beneficial use development, indicated by the permit holder on their Proof Statement, I recommend an in-field examination be conducted.

STATEMENT OF COMPLETION

FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY

Amt. of Fee \$ 50.00Receipt No. N045139Received By NSDate Received 11/6/25

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 92-11097 Name of Permit Holder(s) Justin and/or Crissa MurphyTelephone No. 208-210-6196 Email justinandcrissamurphy@gmail.comMailing Address 807 N. Fork Santa Creek Rd City St. Maries State ID Zip 838612. Source of Water unnamed stream If Ground Water (well), Date Drilled mo. ____ / yr. ____

Drilling Permit/Tag No. ____ Drilling Company's Name ____

3. Extent of use(s) completed as authorized by the water right permit:

Domestic (No. households) 2 Irrigation (No. acres) 1 Stockwater (No. and stock type) Variable Poultry 10-30Other stock type is a mixed flock of chickens & turkeys - no depend on mortality4. Total diversion rate or volume (storage only) for which proof is submitted 0.03 cfs OR 3.0 af

If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

Water is collected from unnamed stream then diverted to a collection pond & sediment ponds. Water is then transferred using 12v pumps into storage tanks

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)

☐ ☒ Ground water level data, pumping information, or other diversion data☐ ☒ Mitigation plan☐ ☒ Lockable controlling works☐ ☒ Measuring device☐ ☒ Fish screen☐ ☒ Other requirements of the water right permit ____☐ ☒ Reasonably Anticipated Future Needs ("RAFN") Municipal useIf RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No7. Fee Enclosed \$ 50.00 or ☐ CWRE field report attached or ☐ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: Justin Murphy Telephone No. 208-582-0437 Email justinandcrissamurphy@gmail.comMailing Address 807 N. Fork Santa crk Rd City St. Maries State ID Zip 83861

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.
