Please fill in the following information:

B. NAME AND ADDRESS OF PERSON OBJECTING

Name: United States of America as trustee on behalf of the
Shoshone-Paiute Tribes of the Duck Valley Indian Reservation
Acting through the:

Address: Area Director, Portland Area Office
Department of the Interior
Bureau of Indian Affairs
911 N.E. 11th Ave.
Portland, OR 97232

Daytime Phone: see below

Name & Address of Attorney, if any:

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Riddle Ranches Inc.

Address: HC 86 Box 37
Bruneau, ID 83604-9402

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☐ **Source**
Should be: _____
3. ☒ **Quantity**
Should be: adjusted to reflect water quantity necessary to irrigate only the
corrected irrigated area (see place of use objection below)
4. ☐ **Priority Date**
Should be: _____
5. ☐ **Point(s) of Diversion**
Should be: _____
6. ☐ **Instream Flow Description**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☒ **Place of Use**
Should be: revised to reflect the actual acreage irrigated or evidence provided
that the IDWR GIS delineation is correct.
11. **I object because:**
 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The 1987 NAPP photography suggests some irrigation occurs in Township 13S, Range 1E, Section 25, but the delineation of the northeastern portion of the acreage appears to contain lands that are non-irrigated. These lands appear to be 1) unsuitable for irrigation (e.g., the topography limits the practicability of flood irrigation), 2) just heavily grazed, 3) not irrigated on a regular basis, and/or 4) have limited evidence of irrigation canals or other irrigation system components. A more definitive assessment cannot be made based solely on the information in IDWR's claim documentation or the NAPP photography. Most likely, a site visit would be required.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

- A. Possible Alternative Season of Use
- B. Place of Use - Combined Total Acreage

2. Describe the changes you wish to make in the proposed recommendation:

A. Riddle Ranches requests that the historical and licensed season of use, 4/1 - 10/31, be recommended by IDWR to the SRBA Court as the Possible Alternative Season of Use.

B. Riddle Ranches requests that the combined total acreage that this right may irrigate in combination with other water rights be changed to reflect place of use changes made to the recommendations for water right numbers 55-02009, 55-02016, 55-02039 and 55-13480.

3. Give a brief explanation as to why you disagree with these portions:

A. This water right has historically been used during the period from 4/1 - 10/31, and has been so licensed by IDWR.

B. Because IDWR inadvertently did not include irrigated acreage in its place of use recommendations for water right numbers 55-02009, 55-02016, 55-02039 and 55-13480, it and claimant agreed to include that acreage in those recommendations on 04/03/98. Because those water rights are limited with this right to irrigation of a total combined

number of acres, the total combined irrigated acres recommended for this right must reflect changes made to the recommendations for those rights.

_____ **I AGREE with this proposed recommendation; no changes need to be made.**

DESCRIPTION OF DIVERTING WORKS - BLUE CREEK, LITTLE BLUE CREEK,
SHOOLY RESERVOIR & BYBEE RESERVOIR
55-02009, 55-02016, 55-02035, 55-02039, 55-02064, 55-02174, 55-
02211, 55-02435, 55-07002, 55-07009 & 55-13480

Diversion works begin with Blue Creek Reservoir which is a 29' high on stream dam in the NESE, S11, T13S, R2E, resulting in a reservoir capacity of 2050 AF. Water is reddiverted from Blue Creek via diversion dams, dikes, ditches and gravity irrigation. Little Blue Creek water comes from Little Blue Creek Reservoir which is a 32' high dam in the SSE, S17, T13S, R3E, resulting in a reservoir capacity of 2,100 AF. Water is diverted directly from Little Blue Creek in one diversion below the dam in the SWSW, S20, T13S, R3E and injected into Blue Creek in the SWS, S19, T13S, R3E. The comingled Blue Creek and Little Blue Creek is diverted via Blue Creek as explained above and the two sources irrigate lands in Secs. 19, 29, 30, 31, 32, T13S, R3E, Secs. 12, 13 & 14, T14S, R2E, prior to the injection point of Bybee & Shooley Reservoir water as explained below.

Shooley reservoir is an on-stream reservoir on the West Fork Shooley Creek and has a 38' high dam located in the NESW, S26, T13S, R1E, with a reservoir capacity of 1100 af. Water is reddiverted from the West Fork Shooley Creek for irrigation in Sec. 25, 26 & 36, T13S, R1E. It is then reddiverted for irrigation of a portion of Sec. 1 & 12, T14S, R1E. In the SENE, S12, T14S, R1E, Shooley Reservoir water injects into Shooley Creek and comingles with Bybee Reservoir.

Bybee reservoir is an on-stream reservoir on the main Shooley Creek with a 52' high dam located in the NESW, S31, T13S, R2E, with a reservoir capacity of 7,970 af. Water is reddiverted from Shooley Creek to irrigate portions of Sec. 6 & 7, T14S, R2E, and portions of Sec. 1 & 12, T14S, R1E. In the SENE, S12, T14S, R1E, Bybee Reservoir water comingles with Shooley Reservoir water after the Shooley Reservoir water is injected into Shooley Creek. Both sources flow down Shooley Creek and are diverted in the NWS, S15, T14S, R2E, irrigating lands in the SW1/4, S14 and the NW1/4 S23, before injecting into Blue Creek in the NE1/4 S23, T14S, R2E. At this point all four sources are comingled, Bybee Reservoir, Shooley Reservoir, Blue Creek and Little Blue waters. These are reddiverted from Blue Creek to irrigate lands in Sec. 23, 26 & 35, T14S, R2E.

RE: Snake River Basin Adjudication (SRBA)
Owyhee County - #A55-02210, #A55-02181, and #A55-07002

Dear Mr. and Mrs. Jackson:

Thank you for taking my phone call last week. As I explained, I have been assigned to review the SRBA notices of claim submitted by you and by Riddle Ranches. During my initial desktop review of your notices of claim, I have concluded that I should do field exams to verify some of your water uses. I will call you to arrange times for these exams. During each visit I would appreciate the assistance of someone who is familiar with your irrigation operations. I am looking forward to working with you over the next few months to get your water right recommendations exactly correct.

Meanwhile, I have also noted some issues which we may resolve through the mail. First, I noticed that IDWR issued water right license #55-02210 to you last month with a place of use of 406 acres. And yet, your corresponding SRBA claim, #A55-02210, lists a place of use of only 330 acres. I cannot recommend this right to the court for more acres than you have claimed. Therefore, you may choose to amend your notice of claim to match the place of use on the license. To do this, you should review the enclosed amended claim form which I have drafted, fix any errors by crossing out the incorrect information and inserting the correct information, sign the notice before a notary public, and return the notice to IDWR with the appropriate fee. In this case, the fee is \$18.00 to cover acres not previously covered by this or any other notice of claim.

Second, license #55-02181 covers water from the same source and delivery system as #55-02210. If you wish to have this right recommended with the same 406-acre place of use, you should amend this notice of claim also. I have enclosed an amended notice of claim form for #A55-02181, which you may complete as described above. Because the acreage added to this claim will have already been covered by #A55-02210, no amendment fee is necessary.

Third, license #55-07002 was issued to Riddle Ranches in 1990 with a 1262 acre place of use. However, notice of claim #A55-07002 was filed with a place of use of only 1166 acres. Therefore, notice of claim #A55-07002 must also be amended in

order for me to recommend the entire licensed place of use. The fee for this amendment, as I have drafted it, is \$96.00 to cover acres not previously claimed by this or any other notice of claim.

To assist you, I have enclosed printouts showing each of the three licenses and the three corresponding notices of claim as they appear in our database.

In order to expedite the claims review process, please submit your amendments as soon as possible, but not later than September 9, 1992. If you do not wish to amend your notices of claim, please let me know in writing.

If you have any questions, please contact me at 327-7934 in Boise.

Sincerely,

Shelley Walter Keen
