

MEMORANDUM

Date: April 10, 2025
To: Transfer 89598
From: Jake Nebeker
Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to add a point of diversion to water right 29-4101B.

Authority to File:

The applicant is the current water right owner of record. Bannock County parcel data shows the current water right owner as the owner of the place of use. The applicant has authority to make the change.

Water Right Validity:

The right included in this transfer was decreed in the SRBA in 2002. This water right was approved in transfer no. 85150 in 2021. Review of 2023 aerial photography shows growing vegetation on the place of use. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

Other rights do not appear to be injured by the proposed change. The quantity authorized to be diverted will not change as a result of this transfer. The water master was notified and did not provide a comment. The transfer was advertised without protest.

Enlargement of Use:

The proposed change does not appear to result in enlargement because neither rate nor acreage will increase as a result of the transfer.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
