ANALYSIS OF THE WATER USE

Mrs. Croxall must cross Mrs. Palmer's land in order to gain access to the mainline from Papoose Creek. Theron Smith indicated that while Mr. Palmer was living, he would not let Mr. Croxall (his son-in-law) have access to the system. If this did occur, the possibility of forfeiture may need to be investigated.

The area that the system appears to be capable of irrigating was measured by pacing. Approximately 0.7 acres of Mrs. Croxall's land can be irrigated with this system.

RE: Evidence of priority date for Notice of Claim to a Water
Right filed in the Snake River Basin Adjudication (SRBA).

Dear Claimant(s):

The claim identified with the number shown above your name has been filed in the SRBA. The claim indicates the water usage is based on beneficial use. Beneficial use rights are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date the water was first put to use, known as the priority date, has not been confirmed by a license, decree or permit. Please note that certain beneficial use rights are identified as "Statutory Claims". A Statutory Claim is a beneficial use right that was recorded with the Department, but was not confirmed. Since the priority date of a beneficial use water right cannot be confirmed by a field examination, proof must be provided supporting the priority date.

A printout of your claim is enclosed for your reference, as well as the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is the goal of the Department to recommend the historical water rights within the Snake River Basin as accurately as possible. A field examination to verify other items of the claim has been conducted. Since the Department cannot confirm the priority date the way other elements of the water right are confirmed by field examination we are asking for evidence of the priority shown on the Notice to make the record complete before recommending a beneficial use water right to the court.

The Department will not recommend the claim be decreed by the court as claimed if no evidence of a priority date is submitted.

Evidence of priority date
Page 2

Please submit the required evidence supporting the priority date to the address shown below by December 20, 1990, referencing all documents with the corresponding claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Carter Fritschle

RE: Field examination of a water right claimed in the Snake River
Basin Adjudication

Dear Claimant:

We are planning to conduct water right field examinations in the vicinity of your water right claim on March 14 and 15, 1990. A field examination is needed to verify your water use.

The field examiner will be visiting your property to obtain information necessary for the verification process. If you, or someone with knowledge of your water system could be available at the time of the field examination, it would be appreciated.

You will be contacted by telephone to schedule a time for the field examination. If you have any questions regarding the field examination, you may contact this office at (208) 327-7862.

Sincerely,

Carter Fritschle

*These claims are all part of one statutory claim for which there
are assignments in IDWR files.

II. Notes

The report on these parties claims will include only the claims to Papoose Creek and the spring tributary to Papoose Creek.

The first step is to do the field work to review the claims, and to provide a fairly detailed report of the results of the field work, including a diagram (from which a map can later be made if necessary) of the diversion works and uses of water.

We also need to get some supporting information on the priority dates claimed, since they all have a basis of beneficial use or statutory claim. A29-10010 and 10103 qualify as small D&S which would normally come under the proposed policy that no supporting information is required for the priority date, but here, all the claims are small and we know there is a current dispute so we probably ought to seek supporting information as to all of them. Note that the statutory claim is evidence of the priority date only as of the date the claim was filed (8/30/76 for 29-4067, and 5/3/76 for 29-4064).

A29-4064A, A29-4064B, A29-4064C and A29-4064D are portions of A29-4064 that are claimed consistent with the assignments in IDWR files. A29-4064E, which is the remainder that was not conveyed away, was not claimed, and this should be checked out. A29-4067 is claimed consistent with the statutory claim, except that a later priority date is claimed in the adj claim.

RE: Evidence of priority date for Notice of Claim to a Water Right filed in the Snake River Basin Adjudication (SRBA).

Dear Claimant(s):

The claim identified with the number shown above your name has been filed in the SRBA. The claim indicates the water usage is based on beneficial use. Beneficial use rights are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date the water was first put to use, known as the priority date, has not been confirmed by a license, decree or permit. Please note that certain beneficial use rights are identified as "Statutory Claims". A Statutory Claim is a beneficial use right that was recorded with the Department, but was not confirmed. Since the priority date of a beneficial use water right cannot be confirmed by a field examination, proof must be provided supporting the priority date.

A printout of your claim is enclosed for your reference, as well as the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is the goal of the Department to recommend the historical water rights within the Snake River Basin as accurately as possible. A field examination to verify other items of the claim has been conducted. Since the Department cannot confirm the priority date the way other elements of the water right are confirmed by field examination we are asking for evidence of the priority shown on the Notice to make the record complete before recommending a beneficial use water right to the court.

The Department will not recommend the claim be decreed by the court as claimed if no evidence of a priority date is submitted.

Evidence of priority date
Page 2

Please submit the required evidence supporting the priority date to the address shown below by December 20, 1990, referencing all documents with the corresponding claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Carter Fritschle
