RE: Release of Security Interest in Water Rights: 35-7421, 35-13929, 35-13930, 35-14132, 35-14133, 35-14134, 35-14135, 35-14309, 35-14310, 35-14311, 35-14312, 35-14313, 35-14314

Dear Security Interest Holder:

The Department of Water Resources acknowledges receipt of your request to release the Security Interest in a Water Right. The water rights listed above have been updated to reflect this request.

Please note the current holders of record for water rights 35-13929 and 35-14132 are Deloy Z Ward & Viola J Ward.

Water right 35-13925 was included in your request for release. We found this water right does not have a Security Interest on file. The current holders of record for this right are Calvin G Lloyd & Kimberly Lloyd.

If you have any questions, please call this office at (208)287-4800.

Sincerely,

Debra Mansfield

|-----|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.  | X27 | This right is limited to the irrigation of 306 acres within the authorized place of use in a single irrigation season.                                                                                                                                                                                                                                                                                     |
| 2.  | X35 | Rights 35-7421, 35-14133 and 35-14135 when combined shall not exceed a total diversion rate of 4.88 cfs, a total annual maximum diversion volume of 1348 af at the field headgate, and the irrigation of 337 acres.                                                                                                                                                                                        |
| 3.  | R02 | A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.                                                                                                                                                                                                                    |
| 4.  | R05 | Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.                                                                                                                                                     |
| 5.  | 214 | Prior to the diversion and use of water under Transfer approval 78328, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device. |
| 6.  | 213 | Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.                                                                                                                                                                             |
| 7.  | R64 | This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.                                                                                                                                                                                                                       |
| 8.  | 004 | This right does not grant any right-of-way or easement across the land of another.                                                                                                                                                                                                                                                                                                                         |
| 9.  | F06 | The following rights are diverted through point(s) of diversion described above: 34-7421, 35-14133 and 35-14135.                                                                                                                                                                                                                                                                                           |
| 10. | T07 | The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.                                                                                                                                                                                                                                                                                     |
| 11. | T08 | Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.                                                                                                                                                                                                                                                                  |
| 12. | T19 | Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.                                                                 |

| 1.  | X27 | This right is limited to the irrigation of 13.2 acres within the authorized place of use in a single irrigation season.                                                                                                                                                                                                                                                                                    |
| 2.  | X35 | Rights 35-7421, 35-14133, and 35-14135 when combined shall not exceed a total diversion rate of 4.88 cfs, a total annual maximum diversion volume of 1348 af at the field headgate, and the irrigation of 337 acres.                                                                                                                                                                                       |
| 3.  | R02 | A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.                                                                                                                                                                                                                    |
| 4.  | R05 | Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.                                                                                                                                                     |
| 5.  | 214 | Prior to the diversion and use of water under Transfer approval 77131, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device. |
| 6.  | 213 | Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.                                                                                                                                                                             |
| 7.  | R64 | This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.                                                                                                                                                                                                                       |
| 8.  | 004 | This right does not grant any right-of-way or easement across the land of another.                                                                                                                                                                                                                                                                                                                         |
| 9.  | F06 | The following rights are diverted through point(s) of diversion described above: 35-7421, 35-14133 and 35-14135.                                                                                                                                                                                                                                                                                           |

## Proof Report

4. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
5. 214 Prior to the diversion and use of water under Transfer approval 77131, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
6. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
7. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
8. 004 This right does not grant any right-of-way or easement across the land of another.
9. F06 The following rights are diverted through point(s) of diversion described above: 35-7421, 35-14133 and 35-14135.
10. K01 Right No. 35-13930 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
11. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

Right Acre Limit: 11.70  
POU Total Acres: 90.0

**Conditions of Approval:**

1.            X27            This right is limited to the irrigation of 11.7 acres within the authorized place of use in a single irrigation season.
2.            X35            Rights 35-14309, 35-14310, 35-14311, 35-14312, 35-14313 and 35-14314 when combined shall not exceed the irrigation of 90.0 acres.
3.            R02            A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
4.            R05            Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
5.            214            Prior to the diversion and use of water under Transfer approval 78328, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
6.            213            Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
7.            R64            This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
8.            004            This right does not grant any right-of-way or easement across the land of another.
9.            T07            The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
10.          T08            Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11.          T19            Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

- |     |     |                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.  | X27 | This right is limited to the irrigation of 20.6 acres within the authorized place of use in a single irrigation season.                                                                                                                                                                                                                                                                                    |
| 2.  | X35 | Rights 35-14309, 35-14310, 35-14311, 35-14312, 35-14313 and 35-14314 when combined shall not exceed the irrigation of 90 acres.                                                                                                                                                                                                                                                                            |
| 3.  | R02 | A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.                                                                                                                                                                                                                    |
| 4.  | R05 | Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.                                                                                                                                                     |
| 5.  | 214 | Prior to the diversion and use of water under Transfer approval 78328, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device. |
| 6.  | 213 | Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.                                                                                                                                                                             |
| 7.  | R64 | This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.                                                                                                                                                                                                                        |
| 8.  | 004 | This right does not grant any right-of-way or easement across the land of another.                                                                                                                                                                                                                                                                                                                         |
| 9.  | T07 | The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.                                                                                                                                                                                                                                                                                     |
| 10. | T08 | Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.                                                                                                                                                                                                                                                                  |
| 11. | T19 | Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.                                                                 |

|-----|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.  | X27 | This right is limited to the irrigation of 14 acres within the authorized place of use in a single irrigation season.                                                                                                                                                                                                                                                                                      |
| 2.  | X35 | Rights 35-14309, 35-14310, 35-14311, 35-14312, 35-14313 and 35-14314 when combined shall not exceed the irrigation of 90 acres.                                                                                                                                                                                                                                                                            |
| 3.  | R02 | A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.                                                                                                                                                                                                                    |
| 4.  | R05 | Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.                                                                                                                                                     |
| 5.  | 214 | Prior to the diversion and use of water under Transfer approval 78328, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device. |
| 6.  | 213 | Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.                                                                                                                                                                             |
| 7.  | R64 | This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.                                                                                                                                                                                                                       |
| 8.  | 004 | This right does not grant any right-of-way or easement across the land of another.                                                                                                                                                                                                                                                                                                                         |
| 9.  | T07 | The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.                                                                                                                                                                                                                                                                                     |
| 10. | T08 | Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.                                                                                                                                                                                                                                                                  |
| 11. | T19 | Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.                                                                 |
