6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
13. Industrial use is for dust suppression and environmental remedial analysis.
14. The unleased portion of water right 29-2255C is limited to 0.14 cfs and 13.0 af for mitigation under a plan between IDWR and FMC dated 01/13/2014.

SUPPLY BANK CONTRACTS 1829, 1859, 1860**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contracts are not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2026**, unless the rights are released earlier by the Board, or upon your request. To release the rights from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contracts, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

MEMORANDUM FOR WSB LEASE APPLICATION # 2861

To: Water Right No(s). 29-2255C

From: Skyler Cheever, Water Resource Agent

Date: 5/9/2024

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2861 was sent in by FMC Idaho LLC and received by the Department on December 22nd, 2023, with the correct fee payment received on the same date. The applicant proposes to lease a 50 AF portion of water right 29-2255C into the water supply bank from 2024-2026. According to an email conversation with the representative on January 11th, 2024, American Falls-Aberdeen Ground Water District previously rented the leased portions of 29-2255C, 29-2255E, and 29-11342. However, no rental application has been received by the Department for the 2024 season. This application was included with two separate applications for rights 29-2255E and 29-11342. The point of diversion is within the Snake River Basin Moratorium Area, Eastern Snake Plain Aquifer Groundwater Management Area, and Non-Trust Water Area. This application is a renewal of contract 1247 which expired on December 31st, 2023.

AUTHORITY TO FILE:

Victoria Hollinger signed the application. Currently there isn't enough information provided through the Idaho Secretary of States Office Database to determine if Ms. Holliger has the authority to file on behalf of FMC Idaho LLC. However, after reviewing the lease application for water right 29-11342 and included document indicated Ms. Holliger is a secretary with the company. Therefore Ms. Holliger has the authority to file this agreement. FMC Idaho LLC is the current owner of water right 29-11342 according to Department records.

WATER RIGHT VALIDITY:

Water right 29-2255C was decreed in 2004. The entire right was leased into the bank from 2007-2014. In 2015 a portion of the right was released into the bank. 0.08 cfs and 7.9 af remained in the bank because of a rental agreement against the lease. The remaining portion underwent a period of nonuse via a mitigation plan signed by the Director of IDWR in 2014. Any water right going through a period of nonuse resulting from a mitigation plan approved by the Director is likely within a valid defense to forfeiture according to Idaho Code §42-223(10). The portion proposed in this application was first leased into the bank from 2020-2023. Any water right or portion thereof leased into or rented from the bank is likely within a valid defiance to forfeiture according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to conclude the proposed portion of 29-2255C is likely not lost to forfeiture and can be leased into the bank.

INJURY TO OTHER WATER RIGHTS:

There are no concerns with idling the portion of 29-2255C. Any injury concerns would be determined through the review of a rental application against the lease contract.

ENLARGEMENT OF USE:

Water right 29-2255C authorizes industrial use for dust suppression and environmental remediation. There are various other industrial rights overlapping with the place of use and one right, 29-2301, diverts from the proposed point of diversion. However, 29-2255C is not limited when combined limit with other water rights. A condition should add to the contract limiting the

unleased portion of water right 29-2255C to 0.14 cfs total diversion rate and 13 af volume to prevent possible enlargement. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 29 and Water District 120. The Watermaster and Eastern Regional Manager were contacted for comment on May 9th, 2024. No response was received, it is assumed there are no concerns with the applicant's proposal.

Good morning, John,

Thank you for the clarifications. The current rental rate is \$23/acre-foot, of which the water right owner receives 90% and the Department retains 10% for administrative fees. I will note that the applications are ready for review. Please note that as no rental application from the Aberdeen-American Falls Ground Water District has been received, these rights may be made available to other users.

Mackenzie,

Thank you for your email request for clarification. Previously, FMC leased the unused portion of its water rights, 29-2255C, 29-2255E and 29-11342 to the American Falls-Aberdeen Ground Water District through the Water Supply Bank. The balance of the water retained by FMC has been used on site for industrial/remediation(See Attachment 2). All water of 29-2255E and 29-11342 are being submitted to the Bank. It is the intent of FMC to continue this relationship with the District if a new lease for 3 years can be completed. FMC is in the process of negotiating with the District to hopefully finalize the lease shortly.

Please continue to process the application to the Bank. If FMC is unable to finalize the continued lease with the District, the water would then be available for other uses. Please inform us of the present rental rate in the Bank.

Thank you for your consideration.
