of 30.0 acres in a single irrigation season.

Comments:

1 dnarsavage 7/26/2006 POU

Despite several attempts to contact the claimants, no priority evidence - or correspondence of any sort - was ever received regarding this claim. I can recommend only the 21 acres of this claim that overlap the decreed right 67-438 (21 acres total) claimed on the same ground. To choose the POU, I used the 1987 and 2004 imagery to outline what appeared to be the most obviously irrigated and most easily farmed contiguous 21 acres.

2 dnarsavage 7/26/2006 Priority

No EOP received. Can use overlapping decreed right as EOP for 21 acres.

3 csaxton 12/17/2006 POU

Recommendation amended per POU for 67-438. Can recommend more acres for this right giving priority date of 5-4-1940 which is one day after the licensing FE was conducted for 67-2385. During the licensing FE, a delivery system was confirmed and the claimed POU falls within the LWID service area. We know at this time that flood water could be delivered to the claimed POU.
