H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office exam because the beneficial use is for domestic use for one home and a total diversion rate of less than 0.24 cfs. The exam was conducted on February 3, 2025, by Jared Klay. At the time of the exam, ownership of the permit is in the name of Michael & Karolyn Mc Devitt. Current Bonner County taxlot data represents the permit holders own the land appurtenant to the place of use (POU) and point of Diversion (POD). Proof of Beneficial Use was submitted on January 13, 2025.

The permit holder did not provide any information on pump capacity, motor make, etc . Thus, I am recommending the diversion rate consistent with the permit, as 0.04 cfs. Bonner county aerial imagery was able to confirm domestic use on the property. I am also recommending an annual volume of 1.2 af because irrigation of up to a half-acre is included with the domestic use, as per Application Processing Memo #22.

All the conditions of this permit have been met. The Idaho Department of Fish and Game did not submit any comments on the requirement of a fish screen so Condition 029 can be removed. Condition 004 will be dropped because there are no property concerns. I am adding condition 187 to limit irrigation use to ½ an acre under the domestic use. All other conditions on the permit will be carried over to the license.

Have conditions of permit approval been met? __x__Yes ____No
