**RE: Preliminary Order Expanding Water District 170 and Modifying and Combining Water Districts within Administrative Basin 74**

Dear Water Right Holder,

Enclosed please find a copy of the Preliminary Order regarding the above referenced matter. This Preliminary Order accomplishes the following actions:

- Combines Water Districts 74, 74K, 74U, and 74Y into Water District 74;
- Modifies Water Districts 74, 74A, 74B, 74C, 74F, 74G, 74J, 74M, 74Q, 74W, and 74Z to include all surface and ground water rights within their respective boundaries with the exception of stockwater and domestic water rights described below;
- Expands the boundaries of Water District No. 170 to include all surface and ground water rights in Basin 74, with the exception of stockwater and domestic water rights described below; and
- Designates Water Districts 74, 74A, 74B, 74C, 74F, 74G, 74J, 74M, 74Q, 74W, and 74Z as subdistricts within Water District No. 170.

These actions under the Preliminary Order do not include ground water or surface water rights used for stockwater and domestic purposes as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113.

The records of the Idaho Department of Water Resources (Department or IDWR) show that you own or have an interest in one or more water rights within the above referenced water districts. Also enclosed is an informational sheet that explains options for responding to preliminary orders. Please note that any party subject to the order may file a petition for reconsideration within fourteen (14) days of the service date of the order, which is the date of this letter. The Department will act upon petitions within twenty-one (21) days of their receipt.

Please contact this office, the IDWR regional office in Idaho Falls (208-525-7161), or the IDWR Salmon Field Office (208-742-0658) if you have any questions concerning the attached order.

Sincerely,

Tim Luke  
Water Compliance Bureau

**PRELIMINARY ORDER EXPANDING,  
MODIFYING AND COMBINING  
WATER DISTRICTS**

**PROCEDURAL HISTORY**

On November 9, 2017, the Idaho Department of Water Resources (“Department” or “IDWR”) sent a letter to all owners of record for water rights within Water District 170 and Administrative Basin 74 (“Basin 74”), except for domestic and stockwater uses, as defined in Idaho Code §§ 42-111 and 42-1401(11), and instream stockwater uses, as defined in Idaho Code § 42-113. The letter notified the recipients of a public meeting to discuss certain changes proposed for Water District 170 and water districts within Basin 74. The Department conducted the public meeting on November 28, 2017, in Salmon, Idaho, and presented information about the proposed water district changes.

On January 17, 2018, the Department issued a Notice of Public Hearing describing specific changes proposed for Water District 170 and all water districts within Basin 74. The notice was sent to all current owners of record for water rights administered by Water District 170 and water rights within Basin 74, except for domestic and stockwater uses, as defined in Idaho Code §§ 42-111 and 42-1401(11), and instream stockwater uses, as defined in Idaho Code § 42-113.

The Department conducted the public hearing on February 1, 2018, at the Lemhi County Annex in Salmon, Idaho. Cindy Yenter, an employee of the Department and the current watermaster for Water District 170, presented information about the proposed changes. Participants were encouraged to offer testimony regarding the proposal. Carl Ellsworth, Merrill Beyeler and James Whittaker offered testimony at the hearing. In addition, water users were encouraged to provide written comments to the Department on or before February 12, 2018. Written comments were provided by James Whittaker and the Upper Salmon Basin Watershed Advisory Committee, and a *Statement of Public Witnesses* was provided by 82 water users in Basin 74. After carefully considering all of the evidence in the administrative record, the Department finds, concludes and orders as follows:

## FINDINGS OF FACT

1. Basin 74 includes the Lemhi River and its tributaries from the headwaters of the Lemhi River to its confluence with the Salmon River. There are currently twelve active water districts in Basin 74: 74 (Lemhi River and some of its tributaries), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74U (Andrews and Slough Ditch), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks). There are also some inactive water districts in Basin 74, including 74K (Pattee Creek) and 74Y (Yearian Creek).

2. Water Districts 74K (Pattee Creek) and 74Y (Yearian Creek) are inactive, meaning the districts do not conduct annual meetings or elect a watermaster. There are currently only two active ditches within each of these districts.

3. Historically, the active water districts in Basin 74 have operated as independent districts, each with its own elected watermaster and annual operation budget. Ground water rights in Basin 74 have not been administered by any of the existing water districts in Basin 74.

4. Basin 74 was included in the Snake River Basin Adjudication (“SRBA”). All surface water rights and ground water rights in Basin 74 were required to participate in the SRBA, except for domestic and stockwater uses as defined in Idaho Code §§ 42-111 and 42-1401(11), and instream stockwater uses as defined in Idaho Code § 42-113. A final unified decree was issued by the SRBA Court on August 26, 2014.

5. On April 3, 2012, the presiding judge for the SRBA Court issued a *Partial Decree Pursuant to I.R.C.P. 54(b) for General Provisions in Basin 74* (“Basin 74 General Provisions”).

6. The Basin 74 General Provisions include a provision commonly referred to as the “separate streams provision,” which identifies twenty-seven drainages within Basin 74 and states that water rights from those sources “shall be administered separately from all other water rights in Basin 74 in accordance with the prior appropriation doctrine as established by Idaho law[.]” *Basin 74 General Provisions* at 1. “Future appropriations of water on the above streams are not considered to be subject to prior downstream rights on the Lemhi River proper.” *Id.* at 2. “Future appropriations of water on any other water source or stream in the Lemhi River Basin, however, are considered to be tributary to the Lemhi River for purposes of distribution.” *Id.*

7. The Basin 74 General Provisions also include a provision commonly referred to as the “high flow provision,” which states:

The following general provision shall govern the use of “High Flow” surface water for irrigation within the Lemhi Basin:

The practice of diverting high flows in the Lemhi Basin, in addition to diverting decreed and future water rights that may be established pursuant to statutory procedures of the State of Idaho, is allowed provided:

- (a) the waters so diverted are applied to beneficial use.
- (b) existing decreed rights and future appropriations of water are first satisfied.

*Id.* at 2.

8. On April 6, 2006, the Director of the Department issued an *Amended Final Order Creating Water District No. 170* (“2006 Order”). Pursuant to the 2006 Order, Water District 170 included all surface water and ground water rights in Administrative Basins 71 and 72, other than domestic and stockwater rights as defined by Idaho Code §§ 42-111 and 42-1401A(11).

9. Finding of Fact No. 10 in the 2006 Order states, in pertinent part:

The Director’s [hearing] notice also included a description of the Director’s proposal to expand the Upper Salmon Water District by 2007 to encompass all of Basins 73, 74, and 75, after the water rights in those basins have been decreed by the [SRBA] District Court . . . .

10. On December 10, 2012, the Department issued a Preliminary Order, expanding Water District 170 to include Administrative Basin 73 (Pahsimeroi River) and designating Water District 73 as a subdistrict of Water District 170. Water District 73 was also modified to include the administration of certain ground water rights within the district.

11. On August 20, 2004, a *Stipulation and Joint Motion for Order Approving Stipulation and Entry of Partial Decrees* (“W&S Stipulation”) was filed with the SRBA Court, resolving objections to Wild & Scenic River claims filed by the United States for water rights in the Salmon River drainage.<sup>1</sup>

12. Attorney General Lawrence Wasden signed the W&S Stipulation on behalf of the State of Idaho (including the Idaho Water Resources Board). *W&S Stipulation* at 21. The W&S Stipulation was also signed by a representative of the United States Department of Justice and by other objectors to the contested SRBA claims. *Id.* at 20-27. The effective date of the W&S Stipulation is September 1, 2003. *Id.* at 18.

13. The following provisions of the W&S Stipulation are relevant to the water district changes proposed by the Department:

Enforcement. The State, through [IDWR] and local water districts created and supervised by IDWR pursuant to Idaho Code §§ 42-604 et seq., shall distribute water to the federal reserved water rights set forth in this Stipulation and the Partial Decrees and all other hydraulically connected water rights, regardless of subbasin location, above the ending point of the respective federal reserved water rights in accordance with priority dates, quantities and all other elements of the rights as provided in this Stipulation and the Partial Decrees, and applicable law at all times when there is a hydraulic connection between the federal reserved water right and the right to be regulated. While this paragraph does not affect the present

---

<sup>1</sup> On November 16, 2004, the SRBA Court issued an *Order Approving Stipulation and Entry of Partial Decrees*.

administration of existing water rights from tributary sources that are administered separately, all new water rights that are hydraulically connected with the Wild and Scenic Rivers federal reserved water right will be administered as a single source.

*W&S Stipulation* at par. 2(a), p. 3.

Creation of Water Districts.

(1) IDWR will establish water districts as necessary to assist IDWR in the administration of water rights. The parties agree that, regardless of whether a water district has been established for an area, IDWR will:

- A) collect and record diversion data;
- B) enforce the water rights in priority; and
- C) curtail unauthorized or excessive diversions as necessary.

*Id.* at par. 2(b)(1), p. 3.

Within six months of the filing of Director's Reports for administrative basins 73, 74 and 75, the parties will file a joint petition with the SRBA Court, pursuant to Idaho Code § 42-1417, for an order for interim administration of those basins and IDWR will incorporate those basins into the [Upper Salmon Water District "USWD," a.k.a. Water District 170]. Existing water districts within the basins will be converted to subdistricts within the USWD as appropriate to facilitate management. Other subdistricts will be formed as deemed necessary to accomplish the purposes of the USWD. Creation of the USWD shall involve full participation by water users in the area in accordance with state law, and the existing water districts will have an important role. The resulting organization will be fully under the supervision of IDWR.

*Id.* at par. 2(b)(2), p. 4.

Prevention of Unauthorized Uses. IDWR and the watermaster will utilize all appropriate techniques, including but not limited to remote-sensing, field observation and inventory, coordination with local water users and citizens, and input from other agencies, to identify unauthorized uses of water. IDWR and/or the watermaster will curtail identified unauthorized uses of water based on the authorities of Chapter 6, Title 42, Idaho Code, and IDWR will pursue appropriate civil enforcement action as provided in Idaho Code §§ 42-351 and 42-1701B.

*Id.* at par. 2(b)(3)(d), p. 5.

Administration of Existing Water Rights. IDWR and the watermaster shall conduct a systematic inventory of diversions, giving priority to those diversions that have the greatest potential influence on other water rights. IDWR will evaluate the staffing requirement for operation of the water district and will identify needs for subdistricts and deputy watermasters as required. IDWR and the watermaster

will specifically identify and curtail unauthorized uses. . . . IDWR will require installation of lockable controlling works and measurement devices for any existing diversion if it is determined that the water right holder is refusing or failing to comply with IDWR's or the watermaster's instructions and will pursue appropriate civil enforcement action as provided in Idaho Code §§ 42-351 and 42-1701B.

*Id.* at par. 2(b)(3)(e), pp. 5-6.

Remedies. In the event the State fails to administer water rights in accordance with the terms of this Stipulation, the Partial Decrees and applicable law, any party to this Stipulation, upon a satisfactory showing to the SRBA Court, or any successor state court with jurisdiction to enforce the final decree issued by the SRBA Court, of such failure to administer, shall be entitled to an order under the Court's continuing jurisdiction, as described in paragraph 5, compelling the State to properly administer the water rights.

*Id.* at par. 2(b)(3)(i), p. 7.

14. In the January 17, 2018 Notice of Public Hearing, the Department proposed the following changes:

- 1) Expand the boundaries of Water District 170 to include all surface and ground water rights in Basin 74, except for stockwater and domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113. Existing water districts in Basin 74 will become subdistricts of Water District 170.
- 2) Combine Water Districts 74 (Lemhi River), 74K (Pattee Creek), 74U (Andrews and Slough Ditch) and 74Y (Yearian Creek) into a single water district, 74 (Lemhi River).
- 3) Expand the scope of Water Districts 74 (Lemhi River), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks) to include all ground water rights within their respective boundaries, except for stockwater and domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11).

### **RELEVANT LEGAL PROVISIONS**

Idaho law declares that all surface water, when in natural channels or springs or lakes, and all ground water within the State of Idaho are “the property of the state, whose duty it shall be to supervise” the “appropriation and allotment” of the water “to those diverting the same therefrom for any beneficial purpose[.]” Idaho Code §§ 42-101, 42-226.

The Director, acting on behalf of the State of Idaho, is authorized to control the appropriation and use of all surface and ground waters within the state. *See* Idaho Code §§ 42-101, 42-103, 42-202(1), 42-220, 42-226, 42-237a.g., 42-351, and 42-602 et seq.

Idaho Code § 42-604 requires the Director to form water districts to properly administer uses of water from “each public stream and tributaries, or independent sources of water supply,” for which a court having jurisdiction thereof has adjudicated the water rights.

The Director has “direction and control of the distribution of water from all natural water sources within a water district . . .” Idaho Code § 42-602. The Director must “distribute water in water districts in accordance with the prior appropriation doctrine.” *Id.*

The Director has discretion to determine how the “mandatory water districts shall be structured” and may “create new districts, revise existing districts, or even abolish districts, as the Director finds necessary for the efficient distribution of water resources.” *In re Idaho Dep't of Water Res. Amended Final Order Creating Water Dist. No. 170*, 148 Idaho 200, 211, 220 P.3d 318, 329 (2009). “[E]fficient distribution of water . . . requires that IDWR implement sufficient administrative oversight to prevent conflicts from arising, where possible, and to furnish a framework of evenhanded oversight which allows for consistent planning by water users. *Id.*

## ANALYSIS

In the W&S Stipulation, the State of Idaho agreed to take certain actions to facilitate the administration of water rights in the Salmon River drainage. Specifically, the state agreed to create a water district to administer water rights within the basin, including water rights issued subsequent to September 1, 2003, which are subject to the Wild & Scenic water rights held by the United States.

Although existing water rights (as of September 1, 2003) on sources identified as separate streams in the Basin 74 General Provisions are not subject to the Wild & Scenic water rights held by the United States, water rights issued after September 1, 2003 on those sources are subject to the Wild & Scenic water rights.<sup>2</sup> Administering water rights junior to September 1, 2003 will require coordination across water district boundaries. The W&S Stipulation also sets forth standards for measurement and reporting of surface and ground water diversions within the Upper Salmon River drainage. Having a single water district over all of the Upper Salmon River drainage will lead to uniformity in measurement and reporting of diversions. Water District 170 is needed to facilitate efficient distribution of the water rights throughout all of the basins and subdistricts in the Upper Salmon River drainage, including Basin 74.

---

<sup>2</sup> The separate streams provision states that future water rights from the sources identified as separate streams “are not considered to be subject to prior downstream rights on the Lemhi River proper.” *Basin 74 General Provisions* at 2. However, future water rights from the sources identified as separate streams in the Basin 74 General Provisions may be subject to prior downstream rights on the Salmon River, including the Wild & Scenic rights held by the United States.

## Concerns Raised by Basin 74 Water Users

At the hearing, Carl Ellsworth expressed opposition to the expansion of Water District 170. Mr. Ellsworth testified that if the existing water districts in Basin 74 are incorporated into Water District 170, the existing water districts should remain intact as subdistricts, there should be no additional cost to water users, and ground water rights should be administered by the individual subdistricts. Merrill Beyeler's testimony was similar to Mr. Ellsworth's.

Written comments submitted by the Upper Salmon Basin Watershed Advisory Committee state that the expansion of Water District 170 "is necessary to satisfy the mandate of the [W&S Stipulation]."

Written comments were submitted by James Whittaker<sup>3</sup> and an identical *Statement of Public Witnesses* ("Joint Statement") was signed by 82 water users in Basin 74 (Mr. Whittaker and the 82 water users hereinafter referred to as "Objectors"). The Objectors raise six specific objections to the proposed changes: (1) The expansion of Water District 170 violates the separate streams provision set forth in the Basin 74 General Provisions; (2) The expansion of Water District 170 will negatively impact the high flow provision set forth in the Basin 74 General Provisions; (3) The expansion of Water District 170 will create a conflict of interest for the watermaster of Water District 170; (4) There is no evidence which suggests that water districts in Basin 74 are not performing their duties, and the W&S Stipulation does not require that existing, functioning water districts be incorporated into Water District 170; (5) There is no justification to include ground water diversions in existing surface water districts; (6) Water districts 74U, 74K and 74Y should not be combined with Water District 74 because of an infringement on the separate streams provision.

### Separate Streams Provision

The expansion of Water District 170 will have no effect on the separate streams provision. The Department and the watermasters for the various districts have a statutory duty to deliver water according to the elements and conditions of the SRBA decrees, including the Basin 74 General Provisions. The statutes which give the Director the authority to create and modify water districts do not grant the Director the authority to amend or ignore the elements of the SRBA partial decrees. The twenty-seven sources identified in the separate streams provision will continue to be administered as separate streams.

The Objectors assert that a watermaster cannot effectively administer multiple sources of water, especially if some of the sources are designated as separate streams under the Basin 74 General Provisions. *Joint Statement* at 1-2. This argument has no merit, particularly in Basin 74. Water District 74 currently includes the Lemhi River, but also includes seven of the water sources identified as separate streams in the Basin 74 General Provisions. The watermaster for Water District 74 has been able to administer these sources as separate streams for many years without issue. The watermaster for Water District 170 will be able to do the same.

---

<sup>3</sup> Mr. Whittaker also read his statement into the record during the hearing.

### High Flow Provision

The expansion of Water District 170 will have no effect on the high flow provision. According to the terms of the high flow provision, “[t]he practice of diverting high flows in the Lemhi Basin . . . is allowed provided . . . existing decreed rights and future appropriations of water are first satisfied.” *Basin 74 General Provisions* at 2. Expanding Water District 170 does not diminish the high flow usage in any way. Such usage will continue to be available only when all “existing decreed rights and future appropriations” are satisfied. *Id.*

### Conflict of Interest

Objectors believe expanding Water District 170 and designating the existing water districts in Basin 74 as subdistricts of Water District 170 will create a “conflict of interest” for the Water District 170 watermaster because certain water users in the district will receive additional water at the same time other water users in the district are curtailed. *Joint Statement* at 2. The same argument could be made for every water district in the state. It is not proper to characterize the duty of a watermaster to deliver water to senior water rights and curtail junior water rights as a conflict of interest. All watermasters, including the watermaster for Water District 170, have a duty to deliver water rights according to the elements of the decrees. For the water districts in Basin 74, this duty includes administration of water rights under the separate streams and high flow provisions. The argument that expanding Water District 170 to include the drainages identified as separate streams will create a temptation for the watermaster to disregard the separate streams provision is without merit.

### W&S Stipulation

Objectors argue that the W&S Stipulation does not *mandate* the expansion of Water District 170 to include existing water districts in Basin 74. *Joint Statement* at 2. While that argument may be correct, the W&S Stipulation does contemplate expansion of Water District 170 as needed to facilitate management of water rights throughout the Upper Salmon River drainage. *See W&S Stipulation*, par. 2(b)(2), p. 4. In addition, the Director has discretion to determine how the “mandatory water districts shall be structured” and may “create new districts, revise existing districts, or even abolish districts, as the Director finds necessary for the efficient distribution of water resources.” *In re Idaho Dep’t of Water Res. Amended Final Order Creating Water Dist. No. 170*, 148 Idaho at 211, 220 P.3d at 329. By expanding Water District 170 to include Basin 74, the Department will better be able to guarantee that the provisions of the W&S Stipulation are met. As stated above, having a single water district over all of the Upper Salmon River drainage will lead to uniformity in the measurement and reporting of diversions. Further, there will be greater consistency in how water rights junior to September 1, 2003, are administered throughout the drainage. Water District 170 will offer assistance to watermasters where necessary to ensure that each subdistrict is measuring, reporting and administering water rights properly.

## Combining Surface Water Rights and Ground Water Rights

Objectors assert that including ground water diversion in the existing surface water districts in Basin 74 will not work because “different expertise is required for measuring ground water well diversions as opposed to surface water diversions.” *Joint Statement* at 3. If the proposed changes are adopted, the Department will issue a measuring device order for Basin 74, requiring ground water users to install Department-approved flow meters. Therefore, the watermasters for existing water districts in Basin 74 will not be required to conduct instantaneous measurements of ground water diversions using portable flow meters. The watermasters will simply be required to take readings from installed flow meters. This activity is no different than reading flow meters which may be installed on a pump station diverting water from a creek.

Objectors point to the Camas Creek drainage, specifically Water Districts 31 and 110, as example of an area where the Department has divided ground water diversions and surface water diversions into separate water districts. *Joint Statement* at 3. These particular water districts do not support the Objectors argument. Although Water District 110 only regulates ground water diversions, the Water District 31 watermaster regulates Mud Lake and its tributaries, including ground water wells which pump into Mud Lake. Therefore, Water District 31 regulates both surface water and ground water diversions. Other examples of water districts which include surface water and ground water diversions include Water Districts 01, 29O, 34, 37, 37B, 37O and 130. It is not uncommon for water districts in Idaho to include surface water and ground water diversions.

## Unneeded Layer of Administration

During the hearing, some people in attendance asked Ms. Yenter why the proposed changes were needed. These individuals expressed a concern about creating “another layer of bureaucracy” for water users. Objectors raise the same concern. *Joint Statement* at 3. Ms. Yenter acknowledged that Water District 170 would add another layer of water district administration for water users in Basin 74, but noted that Water District 170 will provide valuable support to the existing water districts. She stated that Water District 170 will not assess water users within subdistricts which are operating in accordance with Idaho law. The 2018 Resolutions for Water District 170 include the following provision: “A subdistrict that adequately measures, records, reports and controls diversions will not be subject to assessments from [Water District] 170”.<sup>4</sup> Ms. Yenter explained that subdistricts can continue to function independently with minimal interference from Water District 170 as long as the measurement and reporting requirements are met. If Water District 170 subdistricts need assistance with compliance issues such as inadequate measuring devices or unauthorized uses, or have technical or administrative questions, the watermaster for Water District 170 can address those issues, allowing the subdistricts to focus on their primary responsibility of delivering water.

---

<sup>4</sup> Water District 170-Upper Salmon River Adopted Resolutions. Budget Resolution adopted 2018.

## Combining Water Districts 74, 74K, 74U and 74Y

Objectors oppose combining Water Districts 74K, 74U and 74Y into Water District 74 because of potential infringement of the separate streams provision. *Joint Statement* at 3. Inactive water districts 74K and 74Y each contain only a couple of diversions and a small group of water users. Re-activating these districts and satisfying all of the annual requirements for these districts would be inefficient given the size of the districts. However, these diversions must still be measured and accounted for. The watermaster of Water District 74 will be able to effectively and efficiently administer four additional diversions in the basin. The fact that each of these tributaries is identified as a separately administered stream is not an issue and has been addressed above. Water District 74U (Andrews and Slough Ditch) is a diversion from the Lemhi River and should be under the jurisdiction of the Water District 74 watermaster.

### **CONCLUSIONS OF LAW**

Although many of the existing water districts in Basin 74 have been administering water rights within their existing districts for decades, the expansion of Water District 170 to include these existing water districts as subdistricts will create consistency of administration throughout the entire Upper Salmon River drainage. The Department and Water District 170, through coordination with subdistrict watermasters, will have a greater ability to ensure compliance with the measurement and reporting terms of the W&S Stipulation. The Department and Water District 170, through coordination with subdistrict watermasters, will have a greater ability to identify and curtail unauthorized water uses within the subdistricts. Water District 170 will also be able to consistently administer water rights junior to September 1, 2003 across the entire Upper Salmon River drainage.

To facilitate the efficient distribution of water rights in Basin 74, the Department should approve the proposed changes.

### **ORDER**

Based upon and consistent with the foregoing, IT IS HEREBY ORDERED that:

1. Water Districts 74 (Lemhi River), 74K (Pattee Creek), 74U (Andrews and Slough Ditch), and 74Y (Yearian Creek) are combined into Water District 74 (Lemhi River). The watermaster for Water District 74 will assume responsibility to administer water rights from the creeks and streams within former Water Districts 74K, 74U and 74Y. The watermaster for Water District 74 will not administer headgates within lateral ditch companies downstream of the diversion from the stream.

2. Water Districts 74 (Lemhi River), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks) are revised to include all surface and ground water rights within their respective boundaries with the exception of stockwater and

domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113.

3. The boundaries of Water District No. 170 are revised to include all surface and ground water rights in Basin 74, with the exception of stockwater and domestic water rights as defined by Idaho Code §§ 42-111 and 42-1401A(11), and rights used for in-stream watering of livestock as defined by Idaho Code § 42-113. *See* Attachment A.

4. Water Districts 74 (Lemhi River), 74A (Geertsen Creek), 74B (Kirtley Creek), 74C (Bohannon Creek), 74F (Pratt Creek), 74G (Sandy Creek), 74J (Withington Creek), 74M (Agency Creek), 74Q (Mill Creek), 74W (Texas, Hawley, Timber, Junction, Bull, Jake and Canyon Creeks) and 74Z (Big Eight Mile and Lee Creeks) are hereby designated as subdistricts within Water District No. 170. These subdistricts shall continue to meet annually to elect a watermaster, adopt a budget, and select an advisory committee. These subdistricts shall be responsible for distribution of surface and ground water rights within their respective boundaries that have been decreed in the SRBA.

DATED this 10<sup>th</sup> day of April, 2018.

James Cefalo  
Hearing Officer

Attachment A

## CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 10<sup>th</sup> day of April 2018, the above and foregoing document was served on each individual or entity on the service list for this matter on file at the Idaho Department of Water Resources, 322 East Front Street, Boise, Idaho, and posted on the Department's website: [www.idwr.idaho.gov](http://www.idwr.idaho.gov). Each individual or entity on the service list was served by placing a copy of the above and foregoing document in the United States mail, postage prepaid and properly addressed.

Sarah Shaul  
Technical Records Specialist  
Idaho Department of Water Resources

## **EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER**

**(To be used in connection with actions when a hearing was held)**

The accompanying order is a **Preliminary Order** issued by the Idaho Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and brief as further described below:**

### **PETITION FOR RECONSIDERATION**

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of the order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

### **EXCEPTIONS AND BRIEFS**

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding to the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

### **ORAL ARGUMENT**

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

## **CERTIFICATE OF SERVICE**

All exceptions, briefs, request for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

## **FINAL ORDER**

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

## **APPEAL OF FINAL ORDER TO DISTRICT COURT**

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.
