REQUEST FOR EXTENSION OF TIME DEFICIENCY LETTER

RE: Permit No. 81-12040

Dear Permit Holder(s):

The Department received the request for extension of time (extension) form you submitted for the above referenced permit.

I am returning the form to you because information provided on the application is not sufficient or incomplete. Please address the following items on the form:

- In order for the Department to grant an extension of time based on good cause, please describe any steps you have taken to develop this permit.

This permit was approved in June of 2022 with proof of beneficial use due by June 1, 2025. Under Idaho Code §42-218, you are allowed 5-years for the initial development period. An Extension Request may be granted one time under Idaho Code §42-218.

There are two (2) years remaining of the initial 5 years allowed under Idaho Code §42-218. You can amend your request to 2 years to get the entire initial 5-year period. You would still have an additional 5-year period available, after the initial 5 years, to submit an Extension Request in the future for due diligence pursuant to Idaho Code §42-204(3)(f).

If the Department grants an extension of five (5) years under Idaho Code §42-204(3)(f), you may lose 2 years on the initial 5-year development period. If you would like to amend your request to 2 years, please change the number of years requested on your extension request form prior to resubmitting. If the extension request is resubmitted with a request for 5 years, the Department will process your Extension Request for the 5 years as submitted.

Please resubmit the completed form and any additional fees requested at your earliest convenience before the proof due date of **June 01, 2025** to avoid the possibility of your permit lapsing. If you have any questions concerning this matter, please contact me at (208) 287-4945.

Sincerely,

Julie Adams

REQUEST FOR EXTENSION OF TIME

DEPT. OF WATER RESOURCES

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form a request that the permit holder(s) be granted an additional period of time under the provisions of Idaho Code § 42-204, in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit no. 81-12040 Date proof is due _____
 Name(s) of permit holder(s) Garry Oye Cheryl Chipman
 Mailing address 2420 Apache Dr. City Bishop State CA Zip 93514
 Telephone no. 760 709 2654 Email garry.oye@gmail.com

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

None

RETURNED

Costing \$ 50

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Delay in electricity. Missoula Electric
Coop is bringing lines to property.
Once electricity arrives, then we can
proceed with pumping & Statement of Completion.

Permit holder(s) request an extension for 5 year(s).

Garry Oye Cheryl Chipman
 Signature (If other than permit holder, Power of Attorney must be supplied)

4-29-25
 Date

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Department has reviewed the explanation for delay and concludes the reason(s) for delay meets the requirements for approval of the Request for Extension of Time as provided by Idaho Code §§ 42-204 and/or 42-218.

☐ **IT IS HEREBY ORDERED** that the permit is **REINSTATED** with the priority date advanced to _____, 20____.

☐ **IT IS HEREBY ORDERED** that the above request for extension of time is **APPROVED**, and the time within which to submit proof of beneficial use is extended to _____, 20____.

Signed this _____ day of _____, 20____

MAY 05 2025

Jim and George,

DEPT. OF WATER RESOURCES

George, our Staking Tech forwarded your emails to me so I thought it would be good to reply to both parties at once to make sure everyone is on the same page. The electrical backbone work going in on the other side of the Brushy Fork will end at an enclosure on the opposite side of the bridge from your properties. Power for your properties would need to come from this enclosure and cross the Brushy Fork to power your homes. Currently, we are waiting for an outside engineering firm to provide us with a cost and design for the bridge attachment. We will need payment for the engineering prior to moving forward with the actual attachment. We also need permission to attach the bridge. In order to apply for a permit to attach, we have to supply engineered drawings with permit application. With an engineered set of plans and permission to attach, we can request a quote to construct the attachment. We will need payment for the contractor quote prior completing any construction of the attachment. Once we know that we can get power across the Brushy Fork, we can generate estimates to extend power to your properties. I don't see that there is any possibility of getting across the Brushy Fork this construction season. As soon as we have more information, we will be reaching out discuss costs and next steps. If you have additional questions in the meantime, please let me know. Thank you.
