10. In which counties are lands listed above as the place of use located? Caribou

11. Do you own the property listed above as place of use? Yes (X) No ()

If "no" explain in Remarks

12: Describe any other water rights used at the same place and for the same purposes as described above.

or None (X)

13. Remarks (include an explanation of the priority date selected):

Remarks to aid in claims review:

1. Priority date: Per Statutory Claim 13-7701. The claimed priority date represents beneficial use commencing with the construction camp that housed construction workers building the power plant. The plant has a decreed December 1905 priority. Irrigation of the Place of Use was to benefit stock used on-site. Irrigation has continued since development. A historical photo of a portion of the camp from 1907 is provided in Attachment 1.
2. This property was leased through 2017. The lessee used this water for irrigation and stockwater through at least 2016.
3. Point of Diversion is the Grace Dam.

FILING FEES

Each claim submitted must include the filing fee. The filing fee for domestic and/or stockwater use claims diverting less than 13,000 gallons of water per day is \$25.00. However, if you are filing more than four (4) claims in which the only purpose of use listed is stockwater, only the first four (4) claims require the \$25.00 filing fee. All additional stockwater claims are fee exempt once the \$100.00 in filing fees has been paid for the first four (4) stockwater only claims filed after July 1, 2017.

The flat fee for filing all other claims filed is \$50.00 per claim. An additional variable filing fee based upon acreage, power generating nameplate capacity, cubic feet per second (cfs) amount, or an equivalent volume of storage water is required for claims for water uses other than domestic and/or stockwater uses diverting less than 13,000 gallons of water per day. Use Table 3 to calculate the variable fee. Add the calculated variable fee to the \$50.00 flat fee to determine the total fee for the claim. The exceptions are fire protection or ground water recharge which have a \$50.00 flat fee, and no variable fee.

Examples for a single claim to a water right with single source and same priority date:

Single family domestic and stockwater use, less than 13,000 gallons per day in total	\$25.00
100 acres irrigation, domestic and stockwater as above	\$150.00
Fish propagation, 4.2 cfs	\$92.00
Multiple family domestic, 1.6 cfs, irrigation of yards and gardens, 14 acres	\$224.00

TABLE 3. VARIABLE FEE SCHEDULE

Irrigation	\$1.00 per acre	Each acre is charged only once.
Power generation	\$3.50 per kilowatt of capacity	Manufacturer's nameplate rating, or \$250,000.00, whichever is less.
Aquaculture	\$10.00 per cfs	
Domestic, stockwater use in excess of 13,000 gallons per day	\$100.00 per cfs	
Municipal, industrial, commercial, mining, heating, cooling	\$100.00 per cfs	
Public instream flow, public lake level maintenance, wildlife	\$100.00 per cfs	
Exceptions: No variable fee is charged for fire protection or ground water recharge.
