filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
29-2395	2/28/1958	GROUND WATER	0.23	94.4	23.6	0.010	4.00
35-14041	10/16/1974	GROUND WATER	0.59	238.0	59.5	0.010	4.00
Rental Totals			0.82	332.4	83.1	0.010	4.00

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2027. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2025, whichever occurs last.

Annual Rental Fee:

2025 - 2027: \$10,969.20 annually

The full fee for the rental of the above-described right(s) is \$10,969.20 per year for years 2025 - 2027. The rental fee includes an administrative fee of \$1,096.92 per year for years 2025 - 2027.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Detailed water right conditions are attached.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This rental agreement does not authorize the construction of a well.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

STATE OF IDAHO

WATER SUPPLY BANK RENTAL AGREEMENT No. 938

11. Use of water under this rental may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
12. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: William Toevs and Joan Toevs

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Email Address wrtoevs@gmail.com Phone Number 2086042599

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☐
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Greg Sullivan Professional Title Engineer

Organization Brockway Engineering Relationship to Applicant Consultant

Mailing Address 2016 North Washington St Ste 4 Twin Falls, Idaho 83301

Email Address greg.sullivan@brockwayeng.com Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Permanent water has not been secured for this location at this time.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.82 CFS	332.4 AF	0.82 CFS	332.4 AF	83.1 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/15/25	6/15/25	☐ 1	☐ 2	☒ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing well, mainline and delivery system.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
NESW 16 T04S R31E	Ground Water	35-13609 and 35-7246M

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 83.1 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
35-13609 and 35-7246M

**STATE OF IDAHO
WATER RESOURCE BOARD**

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
29-2395	Irrigation	2.11	861	215.2		0.23	94.4	23.6
35-14041	Irrigation	3.18	1290	322.5		0.59	238	59.5
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.82	332.4	83.1
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

35-13991, 35-14040, 35-7246M and 35-13609 have an average application rate of 0.01 cfs/acre. Proposed rental diversion rate will be 0.01 cfs/acre.

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☒

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

Permanent water has not been secured for this property.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒

If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☒ No ☐

If yes, describe the date and location of the NOV.

See attached PNOV letter from Cherie Palmer.

- D. Additional Information

A total of 83.1 acres needs to be rented but may not be available for the 2024 irrigation season. Additional ESPA modeling can be performed if other lease water rights are available for rental.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-2395, 35-14041 AGREEMENT 938**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$10,969.20 per year was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 332.4 acre-feet.

Please send a check for \$10,969.20 for 2025 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or \$9872.28 of the rental fee will be paid to the lessor(s) and 10% or \$1096.92 will be retained by the Department to offset administrative costs for **2025**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Aaron Olsen

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

The Water Supply Bank (WSB) received rental application 3010 on August 1, 2024, on behalf of William Toevs and Joanne Toevs. The application proposes to rent portions of water rights 29-2395 and 35-14041 which are leased to the Water Supply Bank under contracts no. 1812 and 1709 respectively. The application requests irrigation of 83.1 acres and proposes a renewal of previous rental agreement no. 886 which was submitted in response to a notice of violation (PNOV E2024-2993). The application proposes a 3 year rental beginning in 2025 and ending in 2027. There is a 320.0 acre permissible place of use made up of existing water rights 35-7246M, 35-13609, 35-13991, and 35-14040 that the application proposes to add additional acres to. The existing rights authorize 156.1 acres of irrigation within the PPU.

The proposed rental location and the water rights to be rented are within the Snake River Basin Moratorium Area, Eastern Snake Plain Aquifer Ground Water Management Area, and within Water District 120.

AUTHORITY TO FILE:

The application was signed by both applicants William and Joanne Toevs. The application was prepared and filed by representative Greg Sullivan of Brockway Engineering. Bingham County parcel data shows that the owner of the land appurtenant to the proposed place of use and point of diversion is owned by the applicants.

WATER RIGHT VALIDITY:

Water right 23-2395 was decreed March 22, 2004, the right has been continuously leased to the bank since 2016. Water right 35-14041 was decreed January 31, 2002, the right was leased to the bank beginning in 2023. Both rights have been rented several times since being placed in the bank. Review of aerial photography shows evidence that the lessors have complied with their lease contracts while the right has been leased to the bank. There are no concerns of validity.

INJURY TO OTHER WATER RIGHTS:

The proposed point of diversion is a well approximately 13 miles southwest of the lease point. Both the leased rights and proposed rental are within the Eastern Snake Plain Aquifer modeling boundary. Since they are within the boundary analysis of hydrologic effects within the aquifer and to the Snake River is required for processing. Modeling using the ESPA transfer tool ETRAN V3.4 was provided as an attachment to the application. Review of the ETRAN V3.4 modeling indicates that mitigation would not be required to offset the impacts of the proposed water use at the rental location. There are no concerns of injury to other water rights.

ENLARGEMENT OF USE:

The rental will be delivered through the existing irrigation system used for water rights 35-7246M, 35-13609, 35-13991, and 35-14040. The existing rights authorize 151.6 acres of irrigation additively within a 320.0 acre permissible place of use. The sum diversion rate of the rights is 1.67 cfs for a rate per acre of 0.011 cfs while the sum volume is 624.4 acre-feet which equates to 4.0 acre-feet per acre. The rental requests to add 83.1 acres of irrigation with a diversion rate of 0.82 cfs and a volume of 332.4 acre-feet. This amount equates to 0.01 cfs per acre and 4.0 acre-feet per acre. When combined with the existing water rights the total sum of all use is 2.49 cfs and 956.8 acre-feet over 239.2 acres. The rate per acre equates to 0.01 cfs per acre and 4.0 acre feet per acre which is within what is authorized by the existing rights. There are no concerns of enlargement.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed rental location and the water rights are within the Eastern Region, and Water District 120. Requests for comment were sent to the Eastern Regional Manager and the Water District 120 Watermaster on May 9, 2025.

Re: William and Joanne Toevs

Dear Ms. Condon:

William and Joanne Toevs desire to rent 83.1 acres to an existing point of diversion and pivot located in Section 16 of Township 04S Range 31E. The rental of the 83.1 acres will be for the 2025, 2026 and 2027 irrigation seasons.

The attached rental application identifies water rights 35-2395 and 35-14041 to satisfy the 83.1 acre rental. An ESPA model analysis was performed on the proposed transfer and no mitigation is required for this rental.

Please copy our office on all correspondence regarding these applications.

Sincerely,

Greg Sullivan, M.S., Engineer

RE: Pending Notice of Violation Unauthorized Water Use; Case No. E2024-2993

Dear Mr. and Mrs. Toevs:

The Idaho Department of Water Resources (Department) is reviewing irrigated lands within the Eastern Snake Plain Aquifer by comparing aerial photography against the recorded places of use from valid water rights. These reviews are part of the Department's ongoing compliance checks to ensure water users are complying with the legal limits of their water rights. Irrigating lands without a water right is a violation of Idaho law.

The Department identified lands you own, in Township 04 South, Range 31 East of Section 16, Bingham County, that are irrigated in 2024 and the lands do not appear to be part of any water right place of use.

The Department is providing this notice to make you aware that: 1) There is no record of a valid water right or other authorization allowing the irrigation of the acres referenced above; and 2) You have the opportunity to respond to the Department's preliminary conclusion noted above by contacting the Department to discuss this matter.

Please reply to this notification by June 30, 2024. Your response and cooperation will help the Department determine what actions may be necessary to resolve the apparent issue and could potentially avoid a formal enforcement action by the Department. You may contact me directly at 208-287-4944 or via email at cherie.palmer@idwr.idaho.gov, or you can mail your reply to me at the address above. Your help in clarifying this issue is appreciated.

Sincerely,

Cherie Palmer
