Sorry! I didn't realize there was a \$50 fee for the filing. I can put a check in the mail for that. Should I just mail it to you or to the office in CDA?

Michelle,

The Department received your Statement of Completion for water permit 96-15488 on January 27, 2025.

Did you want to withdraw the Request for Extension of Time to Submit Beneficial Use that the Department received on January 2, 2025? If so, we will apply the \$50 filing fee for the Extension to the Statement of Completion. If not, the Department will need \$50 for the Statement of Completion that can be paid at the Northern Region office in Coeur D'Alene. The Department will also have to reinstate your permit and advance the priority date if you withdraw the Extension.

I know we talked about your options but wasn't sure on where we landed. Please let me know as soon as possible. Thank you.

Perfect. Yes, only 1 acre. So, I'll update the total rate to the 0.07 CFS. The 0.03342 was the actual rate per the well drilling report.

Saves me \$2,000, which sounded ridiculous to me!

Thanks for your help!

Michelle

A couple of questions.

Your permit was issued for 2 acres of irrigation. Are you only irrigating 1 acre? The total diversion rate of your permit is 0.1 cfs. If you are only irrigating 1 acre and using the water for domestic use, the total rate would be 0.07 cfs, not 0.03342. The Department allows 0.04 cfs for domestic use and 0.03 cfs per acre for irrigation less than 5 acres.

Other than that, it looks fine.

Hi Jean,

I'm hoping you can take a quick look at the attached and let me know if I completed the Proof of Beneficial Use form correctly. If so, I can mail it in. The CWRE person I reached out to for assistance in completing this quoted me \$2,000. So, I looked at the form again and found the original Well Driller's Report to see if I could complete it without having to pay someone \$2,000 to help. If I need to, I can take a picture of where the well is, a picture of my house, and the lawn that is irrigated. Although, the Idaho Well map does have the location of the well identified correctly (I helped with that a couple of years ago). And, that map also shows the grass area in the front, sides, and back yards, which is where the inground sprinkler system is.

Let me know if you think this is okay to submit, if I need to provide more, or if I need to pay the \$2,000 to have the CWRE person come out and help me complete the form. I'm clearly not a water rights expert, just a homeowner wanting to make sure we have complied with the Idaho laws!

If there is someone else I should reach out to for assistance, please let me know.

Thank you for your help –

The Department of Water Resources acknowledges receipt of a Request for Extension of Time to submit Proof of Beneficial Use for water permit 96-15488. This permit was approved in December 2023 with a proof due date of January 1, 2025. This is a 2-year development period. According to Idaho code 42-218, you are allowed 5 years for the initial development. Your request was for an additional year. If the Department grants

the additional 1 year, you will not be allowed to file another extension. Would you like to amend your request to 3 years?

When your project is complete, you can file a Statement of Completion with a filing fee and the Department will send a water right agent to do a field examination.

Please let me know as soon as possible if you would like to amend your request to 3 years.
