RE: Change in Ownership Water Right No. 34-367B, 34-685C, 34-684C, 34-2269, 34-4070

Dear Sir/Madam:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership.

Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

**** **Evidence of Ownership/Additional Filing Fee:** Please review the maps and proof reports attached. According to the department's records water rights 34-367B and 34-569F are appurtenant to the property purchased under the Warranty Deed received instrument number 266839, along with a portion of 34-4070 and 34-2269. Your deed, however, is specific in on the water rights being sold. Your deed references that all of water right 34-367B, 34-685C, 34-2269 and 34-4070 are being deed and a portion of 34-684C. No portion of 34-569F or 34-7248 are included in the water right portion.

Our review indicated water right 34-569F must included as part the ownership change, this will require an additional fee of \$25.00. Also, water right numbers 34-2269 and 34-4070 will require a split, there is a portion of the place of use on property owned by Wesley and Rebecca Johnson. Because there is a portion of the place of use on someone else's property a split will be required and there is an additional filing fee of \$150.00 (2X\$100=\$200-\$50.00 already paid). The other water rights listed on the deed are 34-685C, no split, and 34-684C split. In order for the department to update 34-684C as split we will the remaining irrigated acres (17.4 acres) identified.

I have attached proof reports and maps showing the place of use of all the water rights under the combined irrigation of 154 acres for your review.

Because the Department cannot process the ownership change without proper documentation/fees, we will hold any action on your notice pending receipt of the necessary information/fees. If we do not receive the necessary information/fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact the Department if you have any questions.

Sincerely,

Jonie Baily
Technical Records Specialist

Right Acre Limit: 5.00
 POU Total Acres: 154.0

Conditions of Approval:

1. X27 This right is limited to the irrigation of 5 acres within the authorized place of use in a single irrigation season.
2. X35 Rights 34-2269, 34-367B, 34-4070, and 34-569F when combined shall not exceed a total diversion rate of 2.83 cfs.
3. X35 Rights 34-2269, 34-367B, 34-4070, 34-569F, 34-684C, 34-685C, and 34-7248 when combined shall not exceed the irrigation of 154 acres.

Proof Report

4. 206 Rights 34-367B and 34-569F are limited to the irrigation of a specific 55 acres within the 154 acre place of use authorized by this right in a single irrigation season. The specific 55 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 55 acres to be irrigated within the 154 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
5. R05 Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.
6. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
7. Water is delivered through the Sharp Ditch.
8. R63 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
9. 004 This right does not grant any right-of-way or easement across the land of another.
10. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. T19 Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
