RE: Change in Ownership No(s): 65-4921,65-12598,65-11367,65-12579,65-6533,65-12717,

Dear Interested Parties:

The Idaho Department of Water Resources (Department) received a Notice of Change in Water Right Ownership (Notice) from you on December 01, 2021 for the above referenced water rights. The <Notice> was not processed because you would like to update the ownership of these rights when you have your documentation finalized for Rooney Properties.

On December 09, 2024, you authorized the Department to return this process via email. The Department is returning your Notice of Change in Water Right Ownership and the attachments. A refund of \$300 has been requested and will be mailed to TITLE ONE under separate cover from the Idaho State Controller's Office. You may re-submit your request with the appropriate documents and fees.

If you have any questions regarding this matter, please contact me at (208)287-4921.

Sincerely,

Debra Mansfield
Technical Records Specialist 1

Proof Report

1. R23 The water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this license.
2. R08 Return flow discharged to a surface water system shall meet Idaho Water Quality Standards.
3. R04 Use of water under this water right will be regulated by the watermaster of State Water District No. &DISTRICT.
4. The diversion and use of water under this right is subject to review by the Director on January 1, 2018. Upon appropriate findings relative to the interest of the public, the Director may cancel all or any part of the use authorized herein and may revise, delete or add conditions under which the right may be exercised. This right is used for fish propagation and power uses in combination with Right Nos. 65-12717 and 65-12579. The total fish propagation facility volume under these rights is 15,211,152 cubic feet.
