1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK LEASE CONTRACT No. 1959

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
13. The following rights are diverted through point of diversion described above: 2-2220, 2-2221, 2-2222, 2-2409, 2-7040, 2-7396, 2-10471 and 2-10472.
14. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
15. This right is limited to the irrigation of 1188.0 acres within the authorized place of use in a single irrigation season.
16. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 4/8/2008.

Subject: Water Supply Bank Lease/Rental Package for Water Right 02-10471 with three rentals

Dear JR Simplot

I hope this message finds you well. I wanted to follow up regarding your lease/rental package for JR SIMPLOT Water Right 02-10471 that we have been reviewing for the Water Supply Bank. It has come to our attention that one of the rentals is missing an authorization from the Bureau of Land Management (BLM) for the place of use and the letter requesting information will be sent out tomorrow for the rental. I wanted to see if you want to move forward with the lease rental/ package and wait until all necessary authorizations are in place to proceed with the lease rental package., or would you like to withdraw the whole lease/rental package for water right 02-10471 including all the rentals and lease if the authorization is not obtained.

Please let us know your preferred course of action at your earliest convenience. If you have any questions or need further clarification, feel free to reach out.

Thank you for your prompt attention to this matter.

Best regards,

Catalina Beck

MEMORANDUM FOR APPLICATION 3133

To: Water Right(s) 02-10471
From: Catalina Beck Water Resource Agent
Date: February 04, 2025
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: J.R. Simplot submitted an application to lease water right 2-10471 on December 11, 2024. The application is a renewal for another five years starting in 2025 along with the renewal companion rental application no. 3135, 3136, and 3137. The application proposed to lease the full water right 2-10471 of 1,188 irrigated acres to the Water Supply Bank. The water right 02-10471 is in the trust water area.

AUTHORITY TO FILE: The lease application for JR Simplot was signed by James Alderman the secretary for JR Simplot. No concerns with authority to file.

WATER RIGHT VALIDITY: Water right 02-10471 has been in the bank over consecutive terms since 2011. The water right 02-10471 was previously leased in the bank in 2020-2024. No concerns with validity.

INJURY TO OTHER WATER RIGHTS: Continued lease of this water right would not cause injury to other water rights.

ENLARGEMENT OF USE: There are various permissible places of use (PPUs) designated for groundwater and surface water that overlap the water right place of use, including the following water rights: 2-10472, 61-2162, 61-2163, 61-12039, 61-2165, 61-7096, and 61-7170. It is important to note that these PPU's are not utilized concurrently within the same place of use (POU) of proposed water right (2-10471) and are not considered stacked. Water right 02-10471 is a child of previous water right 02-10449 which itself follows another prior water right 02-10433 (based on ownership splits and transfer). The parent right has been in the bank prior to the decree of 02-10471. Water right 02-10471 shares the same place of use but there are no enlargement concerns because JR Simplot submitted a lease application proposing to lease water right 02-10472 from 2025 to 2029. There are no concerns regarding the possibility of enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: Continued lease of this right to be available for rental is the local public interest.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the water right POD is within Administrative Basin 02. Comment requests were sent on March 17, 2025, to Western region and watermaster. No comments were received.
