SALT LAKE CITY, UT 94111-1029

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 35-14820, 35-14442, 35-14443, 35-7632A, AGREEMENT 947**

Dear Renter:

Please find enclosed a receipt in the amount of **\$937.20** in connection with the rental of 284.0 acre-feet of water for irrigation of 71 acres during 2025. Upon receipt of this letter, you are authorized to divert water in compliance with the conditions of water use described in your rental agreement.

Pursuant to the Water Supply Bank Rules, the rental fee will be retained by the Department to offset administrative costs since you are the owner of the rights.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Kris Margheim

Technical Records Specialist I
Water Supply Bank

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED

WATER SUPPLY BANK RENTAL AGREEMENT No. 947

JUN 05 2025

DEPT. OF WATER RESOURCES

This is to certify that:

FARMLAND RESERVE INC
60 E SOUTH TEMPLE STE 1600
SALT LAKE CTY, UT 84111-1029

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
35-14820	12/20/1954	GROUND WATER	0.42	84.0	21.0	0.020	4.0
35-14442	9/5/1972	GROUND WATER	0.39	156.0	39.0	0.010	4.0
35-14443	9/5/1972	GROUND WATER	0.11	36.0	9.0	0.012	4.0
35-7632A	8/5/1976	GROUND WATER	0.02	8.0	2.0	0.010	4.0
Combined Limit Totals			0.52	200.0	50.0	0.010	4.0
Combined Rental Totals			0.94	284.0	71.0	0.013	4.0

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2025. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2025, whichever occurs last.

Annual Rental Fee:

2025: \$937.20

The full fee for the rental of the above-described right(s) is \$937.20 for 2025. The rental fee is an administrative fee of \$937.20 for 2025. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 35-14820, 35-14442, 35-14443, 35-7632 A.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 947

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.

**APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK**

RECEIVED

DEC 16 2024

DEPARTMENT OF
WATER RESOURCES

Applicant Name: Farmland Reserve, Inc

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Application to Rent Water (Continued)

1. CONTACT INFORMATION

- A. Applicant Farmland Reserve, Inc
- Mailing Address 79 S Main Street, Suite 1000, Salt Lake City, UT 84111
- Street City State Zip Code
- Email Address _____ Phone Number (801) 715-9100
- B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐
- If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.
- Representative Greg Sullivan Professional Title Engineer
- Organization Brockway Engineering Relationship to Applicant Consultant
- Mailing Address 2016 North Washington Street, Suite 4 Twin Falls, Idaho 83301
- Email Address greg.sullivan@brockwayeng.com Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

- A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Existing well, mainline and delivery system.

- B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
1.42 CFS	284 AF	1.42 CFS	284 AF	71.0 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

- C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/1/2025	7/1/2025	☒ 1	☐ 2	☐ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing well, mainline and delivery system.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
07S 28E Sec 1 SWSE	Ground Water	35-2391 et al

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as Attachment 3F.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 71.0 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as Attachment 3J. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it Attachment 3K.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
None.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
35-7632A	Irrigation	0.02	8.0	2.0		0.02	8.0	2.0
35-14442	Irrigation	0.39	156	39.0		0.39	156	39.0
35-14443	Irrigation	0.11	36	9.0		0.11	36	9.0
35-14820	Irrigation	0.42	84	21.0		0.42	84	21.0
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	1.42	284	71.0
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Previous attempts to secure permanent water has not been successful.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information
None.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

MEMORANDUM FOR APPLICATION # 3143 / AGREEMENT # 947

To: Water Right(s) 35-7632A, 35-14442, 35-14443, 35-14820

From: Mary Condon

Date: May 6, 2025

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Companion rental application to rent specific ground water rights for 71 acres of irrigation in the Eastern Snake Plain Aquifer Ground Water Management Area (ESPA GWMA) during 2025 only received on December 16, 2024. Lease application 3141 for rights 35-7632A, 35-14442, & 35-14443 along with lease application 3142 for right 35-148320 were reviewed under a separate memo.

AUTHORITY TO FILE: Rental application was completed by the applicants' consultant, Greg Sullivan with Brockway Engineering, and signed by Scott Baird. Mr. Baird is a recognized authority to sign on behalf of Farmland Reserve water right applications. Rental POD is associated with Tag Number A0007327. Rental place of use and point of diversion are on parcels owned by Farmland Reserve, Inc., according to 2024 Power County tax lot data. No concerns with authority to file.

WATER RIGHT VALIDITY: Rights 35-7632A, 35-14442 (35-7246M), and 35-14443 (35-13609) were leased into and rented from the Bank previously until 2013 and then put to full use at the current POU and used with rentals from the bank in 2023. The current lease of these rights is for 2025, only. Offered right 35-14820 is a child right of 35-2391, which was leased and rented from the Board's bank in 2023, and annually each year from 2017-2022. The current lease of this right is 21- of the 40-acres authorized for irrigation for 2025, only. No concerns with validity of requested water rights.

INJURY TO OTHER WATER RIGHTS: Location of rental POD from ground water is within the ESPA GWMA model boundary. ETRAN modeling and mitigation analysis was provided with the rental application to evaluate impacts of the rental, with no mitigation required. The TO well and FROM well grid cells were switched in the data entry provided to the Department. Review staff confirmed no mitigation necessary using correct grid cells and data entry summarized under ESPA Calculations and Mitigation Analysis at end of memo.

ENLARGEMENT OF USE: The 71-acre POU under the proposed rental for irrigation has existing water right 35-14240 with a 2012 priority date that covers the entire ~120 acre pivot, and water right 35-2391 (1954 priority) covers 51 acres within the pivot but not the same acres identified as the rental POU (51+71=122). Applicant states that diversion of the junior right 35-14240 requires mitigation that the user will not continue/secure and therefore requires a rental to cover a portion of the pivot for continued irrigation.

The requested rental would therefore be used in combination with the 51-acre right, 35-2391. Right 35-2391 provides 0.02 CFS per acre, does not have a stated volume, and is no longer stacked/limited with water right 35-7777 post transfer 88765. The four requested water rights are additive to each other and have an R64 condition that when combined with other rights, they will not exceed 0.02 CFS per acre and 4.0 acre-feet per acre. A rental of all four water rights when combined with existing water right 35-2391 is not expected to create an enlargement, since there will not be an increase in the annual diversion rate, diversion volume, or irrigated acres when combined.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental is for a beneficial use.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is in the IDWR Eastern Region, within the Trust Area, and is subject to Water District # 120. Rental POD is also within the Aberdeen American Falls GWD boundary. Email sent to regional manager and watermaster soliciting comments or concerns on May 7, 2025.

ESPA CALCULATIONS AND MITIGATION ANALYSIS

Rental Request – Start 2025 only; Grid Cell R84, C90; TO Well – 71 acres

Area HG – 4, C/U – 3, SOU 4/1 – 10/31

From WRs 35-7632A et al; Grid Cell R82, C93 – 50 acres required

From WR 35-14820; Grid Cell R82, C92 - 21 acres

Modeling Calculations

James, and Blake,

Please see the attached rental review memo, move map, rental map, and original application for a 71-acre rental of ground water during 2025 only, and kindly reply with comments or concerns within 15 days. This rental is for the entire amounts leased under lease applications 3141 and 3142 that I sent you on May 1st, to be used with WR 35-2391 and in place of WR 35-14240. Farmland has a different rental application 3144 that I will review and send to you for comments, later.

Thank you,
Mary

Re: Farmland Reserve

Dear Ms. Condon:

Farmland Reserve desires to withdraw Water Supply Bank Rental Agreement #505 and rent the water currently in that agreement to other fields owned by Farmland Reserve for the 2025 irrigation season. Rental Agreement #505 identifies 51.0 acres under 35-7489, 35-13597 and 35-13595 that will not be irrigated in 2025.

Farmland Reserve would like to lease water rights 35-14820 (\$250 lease fee), 35-7632A, 35-14442 and 35-14443 (\$500 lease fee) into the Idaho Water Supply Bank for the 2025 irrigation season.

Two rental applications are being submitted to the Water Supply Bank at this time as a package application. The first rental application is for 71.0 acres for the 2025 irrigation season. This rental will be satisfied by renting portions of 35-7632A, 35-14442, 35-14443 and 35-14820. The location of the rental place of use and POD are identified in the rental application.

The second rental application is for 44.0 acres for the 2025 irrigation season. The rental will be satisfied by renting portions of 35-7489, 43-13595 and 43-13597. The location of the rental place of use and POD are identified in the rental application.

There are some water right licenses currently located at the proposed 71.0 acre and 44.0 acre irrigation places of use. Those irrigation licenses can only be utilized to provide irrigation water when sufficient annual mitigation has been provided by the Farmland Reserve. Farmland Reserve is not going to secure annual mitigation water for these licensed irrigation water rights for the 2025 irrigation season.

ESPA Model analysis has been performed for these rentals based on IDWR's previous memos and policies. The ESPA Model analysis has been required by IDWR due to the FROM and TO location of the water rights. However, IDWR has not provided any updated guidance, policy or rule as to what can or cannot be approved for such a rentals at this time given the recent orders pertaining to the use of the ESPA transfer analysis tool. Attempts to obtain clarification on what transfers and rentals can be approved in the ESPA have been deferred to legal counsel. It is unknown what duration of time it will take for IDWR to provide the required guidance to allow water right transfers and rentals in the ESPA to be processed by IDWR staff.

A State of Idaho Department of Water Resources Memo dated May 29, 2024 prepared by Jennifer Sukow with the subject of *Cumulative review of ESPA transfers between 2012 and 2023* is attached to the transfer application. The Memo indicates that cumulative effects of transfers in the ESPA on the Ashton to Near Blackfoot river reaches benefited those river reaches by 196 acre feet annually. The cumulative effects of the transfers in the ESPA on the Near Blackfoot to Minidoka river reaches benefited those river reaches by 431 acre feet annually. The cumulative effects of the transfers in the ESPA on the Devil's Washbowl to Bancroft river reaches impacted those river reaches by 33 acre feet annually. The overall affect from ground water transfers within the ESPA from 2012 through 2023 has been a net benefit of 594 acre feet annually to the Snake River.

Based on the ESPA modeling analysis and the cumulative review of the ESPA transfers, the 71.0 acre and the 44.0 acre rentals have been prepared and submitted to IDWR for processing and appears to be approvable.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., Engineer
