E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

Measured Method: (acres irrigated) x (generic diversion rate) = (2.5 acres) x (0.03 cfs/acre) = 0.075 cfs, which rounds to 0.08 cfs. However, the diversion rate is limited to 0.02 cfs per a settlement agreement between the permit holder and Latah County.

Comments:

No measurement is required for an in-office examination per IDAPA 37.03.02.035.01.r.

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2.5 \text{ acres} \times 3 \text{ acre feet} = 7.5 \text{ acre feet}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = 0.02 \text{ cfs} \times 245 \text{ days} \times 1.9835 = 9.7 \text{ acre feet}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 7.5 \text{ acre feet}$

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office exam because it is for irrigation of 5 acres or less. The exam was conducted on April 17, 2025, by Jared Klay. At the time of the exam, ownership of the permit is in the name of Norman Metzker. Current Latah County taxlot data represents the permit holder owns the land appurtenant to the place of use (POU) and point of Diversion (POD). Proof of Beneficial Use was submitted on December 13, 2024.

The place of use was described as 2.5 acres on both the application and the permit. Further review using Google Earth imagery, Latah County aerial imagery, and GIS data confirmed this acreage. Thus, I am recommending 2.5 acres for the place of use. I am recommending a diversion rate of 0.02 cfs based on a settlement agreement between the permit holder and Latah County. I am also recommending an annual volume of 7.5 acre feet.

All the conditions of this permit have been met. Conditions 046 and 26A can be dropped from the license because the permit holder has submitted their statement of completion of beneficial use. Condition 004 will be dropped because there are no property concerns. All other conditions on the permit will be carried over to the license.

Have conditions of permit approval been met? ☒ Yes ☐ No**I. RECOMMENDATIONS**
