1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).

WATER SUPPLY BANK LEASE CONTRACT No. 1633

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.
13. Property is also known as Island Woods Subdivision.
14. Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoirs dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.

Please see attached Water Supply Bank Lease Contracts signed. Also please note I included the address change verification letter you sent us on Jan 30, 2023 and I think what has happened is on the Contracts you did not use our Suite number (100). If you could insure all mailings have the Suite number on them that would be great. Please let me know you received this email. I also included file@idwr.idaho.gov on this email as you asked.

MEMORANDUM FOR APPLICATION # 1633

To: BW Meridian Inc, Mike Myers-Watermaster-WD#63
Re: Water Rights 63-32593 & 63-32595 lease application

From: Bob Howe

Date: 12/16/2022

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

The complete applications for lease to the water supply bank with applicable fees for water rights 63-32593 & 63-32595 were received on October 28th, 2022. No W-9 was received.

AUTHORITY TO FILE:

The lease application was signed by Dennis Baker, president of BW Meridian Inc. The annual report for BW Meridian Inc. for 2022 cites Dennis Baker as president and Matthew Baker as secretary/registered agent. The place of use and point of diversion for the water right are not on property owned by BW Meridian. The water right was previously severed from the land. There are no concerns regarding authority to file.

WATER RIGHT VALIDITY:

Water right 63-32593 was decreed in 2008, when parent WR 63-196 was split. Water right 63-32595 was decreed in 2008, when parent WR 63-197 was split. The water rights have been leased to the water supply bank ever since the 2008 decrees. There are no concerns regarding the validity of the water rights offered to the bank.

ENLARGEMENT OF USE:

Both water rights have an overlapping 74acre place of use within Island Woods Subdivisions 1-6, in Eagle, Idaho and should be leased into the bank together and limited to 74acres. The point of diversion shared by the water rights source is surface water at a site in the Nestled Island Subdivision, about 205ft east of the place of use. The place of use receives municipal water (groundwater and surface water) from Veolia Water Idaho Inc and WR63-22578 provides ground water for irrigation in the SESW qtr/qtr. As previously mentioned, the water rights purposed for lease to the water bank are severed from the property. There were no enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The purposed lease appears consistent with the conservation of water resources in Idaho. However, the water rights purposed for lease to the water bank are within Administrative Basin 63 and are subject to any restrictions that apply.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location for the rental PD is subject to Water District # 63, which includes all surface water rights within water district boundary except rights used for in-stream watering of livestock or ground water rights. Comments regarding the purposed lease were requested from watermaster Mike Myers. If no comments are received, it is assumed that the water district has no concerns with the purposed lease.

**RE: APPLICATION(S) TO LEASE WATER RIGHT NO(S). 63-32593 & 63-32595 TO THE
WATER SUPPLY BANK**

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of the application(s) to lease the above referenced water right(s) to the Idaho Water Resource Board's Water Supply Bank (Bank). The Department will review your application as resources allow. If the application(s) is not processed prior to the end of the proposed lease period, it will be returned to the applicant. The Department regrets any inconvenience caused by the delay.

If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted if additional information is required.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have any questions, please contact me at (208) 287-4822.

Sincerely,
