2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

13. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
14. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
15. This right when combined with water from King Hill Irrigation District on the 28.7 acres authorized to be irrigated by this right shall provide no more than 0.57 cfs nor exceed a combined annual maximum diversion volume of 115 af at the field headgate for the place of use.
16. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available, or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
17. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 161.

MEMORANDUM FOR APPLICATION # 2720

To: Water Right No(s). 61-7681

From: Skyler Cheever, Water Resource Agent

Date: 9/26/2023

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2720 was sent in by Farris Cattle Co. LLC with co-owner Duncan Farris and received on August 17th, 2023, with the correct fee payment received the same date. The applicant proposes to lease the entirety of water right 61-7681 into the water supply bank from 2024-2028. The place of use will continue to receive water from King hill Irrigation District shares. The point of diversion is within the Snake River Basin Moratorium Area and Trust Water Area. This application is a renewal of contract 962 which is set to expire on December 31st, 2023.

AUTHORITY TO FILE:

Duncan Farris signed the application. Mr. Farris has the authority to file this agreement because he is a co-owner of the company according to the Idaho Secretary of States Office Database. Farris Cattle Co. LLC is the current owner of water right 61-7681 according to Department records.

WATER RIGHT VALIDITY:

Water right 61-7681 was licensed in 2014. It was leased into the water supply bank from 2019 to December 31st, 2023. Any water rights leased or rented from the water supply bank would be within a valid defense to forfeiture during the contracted period according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to indicate water right 61-7681 is likely not lost to forfeiture and can be leased into the water supply bank.

ENLARGEMENT OF USE:

Water right 61-7681 is supplemental to surface water shares from the King Hill Irrigation District. If this right is rented without available irrigation shares at the rental place of use, there would be more groundwater diverted than was historically used at the lease place of use and cause enlargement. Therefore, a condition should be added to the contract only allowing rentals of this right as supplemental to King Hill Irrigation District shares to prevent enlargement. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 61 and Water District 161. The Watermaster and Western Regional Manager were contacted for comment on September 26th, 2023. No response was received, it is assumed there is no concern with this proposal.
