**ADDITIONAL CONDITIONS OF ACCEPTANCE**

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

DEPARTMENT OF WATER RESOURCES

**WATER SUPPLY BANK LEASE CONTRACT No. 1801**

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
  - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
  - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.
13. Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoirs dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 3957.
14. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
15. The unleased portions of rights 63-0019 shall not exceed a total diversion rate of 3.34 cfs, and the irrigation of 114.7 acres.
16. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No63.

## MEMORANDUM FOR APPLICATION # 2687

**To:** Water Right 63-00194

**From:** Catalina Beck Technical Records Specialist I

**Date:** December 21, 2023

**Re:** Review & Analysis of Application to Lease Water to the State Water Supply Bank

---

**PURPOSE/NARRATIVE:** TR CO LLC applied for application 2687 received on June 22, 2023. The proposed lease is a portion of the water right (85.3 Acres, 1.86cfs, 383.85 AF) for 5 years starting in 2024 and ending on December 31, 2023. The same portion of the water right has been leased to the Water Supply Bank (WSB) in 2019 (lease application 897). Water right has been in the water bank since the decree was entered in 2009.

**AUTHORITY TO FILE:** The application was signed by Dennis M Bake, the registered agent of T R CO LLC.

**WATER RIGHT VALIDITY:** The water right was partially decreed in 2009 and the portion of the right is a hard area within Two Rivers Subdivision including roads and houses that is no longer irrigated. Water rights were put into the Water Supply Bank from 2019-2023. Placing the right into the Bank for another 5 years will continue to protect from unused forfeiture.

**INJURY TO OTHER WATER RIGHTS:** There is no apparent injury through the portion of this lease water right to other right holders.

**ENLARGEMENT OF USE:** No enlargement is evident through the lease.

**LOCAL PUBLIC INTEREST:** Review staff has no information to suggest this application is inconsistent with the local public interest.

**BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:** The lease appears consistent with the conservation of water resources in Idaho.

**DEPARTMENT STAFF OR WATERMASTER COMMENTS:** The lease point of diversion is subject to Water District No. 63. The watermaster and Western Regional Office were contacted for comments or concerns.
