1. The water rights referenced above will be rented from the bank at the current rental rate.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).

WATER SUPPLY BANK LEASE CONTRACT No. 1803

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
13. This right when combined with all other rights shall provide no more than 3.0 afa per acre at the field headgate for irrigation of the place of use.
14. The unleased portions of rights 77-2048 domestic use when combined shall not exceed a total diversion rate of .04 cfs.

Enclosures: Proposed Lease Contracts

MEMORANDUM FOR APPLICATION # 2701

To: Water Right 77-2048, 77-2095

From: Catalina Beck Technical Records Specialist I

Date: December 28, 2023

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: Nancy Kozlowski submitted application **2701** on July 24, 2023. The proposed lease is the full irrigated water rights of 77-2048 and 77-2095(83 acres,219 AFA,1.56 cfs) for 5 years ending in 2028. The same portion of the water right has been leased to the Water Supply Bank (WSB) from 2019 through 2023(lease application 976). The two water rights were found stacked. The proposed PODs are diversions from Lick Creek as it crosses the Kozlowski property. Various ditches convey the water to the POU's. The irrigation use authorized by right 77-2048 shares the diversion points and delivery ditches used by right 77-2095.

AUTHORITY TO FILE: The application was signed by Nany Kozlowski the sole owner of Water. Right 77-2048, 77-2095. There are no concerns with the authority to file the lease application.

WATER RIGHT VALIDITY: Water right 77-2048 was decreed in 2007. The irrigation component of right 77-2048 will be leased into the water supply bank. Water Right 77-2048 has been in the bank for the last five years starting in 2019. Aerial imagery during the period from the decree to the lease starting in 2019 suggests that no irrigation had occurred for greater than 5 years.

There are no concerns with validity since the applicant can grow vegetation without diverting the water authorized for use by 77-2048. Refer to the attachment of the Climate Engine Data and the photography showing irrigation use compliance with the lease. Pictures and Climate Engine Data are from 2019.

Water Right 77-2095 was decreed in 2006 and has been leased into the WSB since 2002 in the name of Rose Neal Estates with a lease term till 2013. The water right 77-2095 was put back into the bank from 2013-2023 in the name of the current owner (Nancy Kozlowski). The beneficial use reported in 2019 for right 77-2095, had sufficient carrying capacity through the ditches to dewater the source of Lick Creek, and the beneficial use was confirmed.

INJURY TO OTHER WATER RIGHTS: No injury to other water rights.

ENLARGEMENT OF USE: No enlargement is expected through the lease. Water right 77-2048 idled 10 acres and water right 77-2095 idled 73 acres. The stack is consistent between the water rights.

LOCAL PUBLIC INTEREST: Review staff have no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The lease PODs are located within the MSF reach of Lick Creek. The PODs are not currently subject to watermaster control. Western Regional Office were contacted for comments or concerns.
