WATER SUPPLY BANK LEASE CONTRACT No. 1784

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The point of diversion for this right is locally known as Headgate #22 in Water District 37 for delivery to the Hiawatha Canal.
13. A portion of this right provides conveyance for other right holders in the shared delivery of water through the Hiawatha Canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.38 cfs of the leased portion of this right into the Hiawatha Canal whether it is rented or not.
14. Place of use is within portions of Old Cutters Subdivision.
15. Rights 37-22321, 37-22311, and 37-22316 are limited to the irrigation of 31 acres within the place of use described above in a single irrigation season.

Application 2794 was sent in by the City of Hailey and received on October 27th, 2023, with the correct fee payment received on the same date. The applicant proposes to lease the entirety of water rights 37-22311, 37-22316, and 37-22321 into the water supply bank from 2024-2028. The point of diversion is within the Snake River Basin and Big Wood River Moratorium, Big Wood River Ground Water Management Area, Galena Groundwater District, and Trust Water Area. This application is intended to renew contract 850 which is set to expire on December 31st, 2023.

AUTHORITY TO FILE:

Martha Burke signed the application. Ms. Burke has the authority to file this agreement because she is the Mayor of the City of Hailey according to State Records. The City of Hailey is the current owner of water rights 37-22311, 37-22316, and 37-22321 according to Department records.

WATER RIGHT VALIDITY:

Water rights 37-22311, 37-22316, and 37-22321 were decreed in 2009. The rights were leased into the bank in 2015 – December 31st, 2023. According to Multiple Programs Memo No. 2 if a water right is leased into the bank by the end of the sixth year of nonuse it is likely no lost to forfeiture and could be accepted into the bank. Any water right leased into or rented from the water supply bank is likely within a valid defense to forfeiture according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to conclude the proposed water rights are likely not lost to forfeiture and can be leased in the bank.

INJURY TO OTHER WATER RIGHTS:

Water rights 37-22311, 37-22316, and 37-22321 divert from the Hiawatha Canal system. A letter from the canal company provided with the application recommended a 20% conveyance holdback to account for seepage losses from the canal. Therefore, I recommend the rentable diversion rate for each water right be reduced by 20% to account for seepage losses.

ENLARGEMENT OF USE:

Water rights 37-22311, 3-22316, and 37-22321 when combined is limited to 31 acres of irrigation within a single irrigation season. If these rights were leased and rented separately there would be more diversion rate, volume and acres irrigated than was historically leading to enlargement. Therefore, these rights should be leased and rented together to prevent enlargement. There are no other water rights that overlap with the place of use that authorize the same beneficial use or divert from the same point of diversion. Therefore, there are no enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 37 and Water District 37. The Watermaster and Southern Regional Manager were contacted for comment on December 14th, 2023. No response was received, it is assumed there are no concerns with the applicant's proposal.
