WATER SUPPLY BANK LEASE CONTRACT No. 1835

5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right right is for an enlargement of 32.0 acres within the place of use described for this right.
13. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
14. Prior to the diversion and use of water under Transfer approval 79047, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
15. Rights 35-7169, 35-7373 and 35-10422 when combined shall not exceed a total diversion rate of 6.39 cfs, a total annual maximum diversion volume of 1748.0 af at the field headgate, and the irrigation of 437.0 acres.
16. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
17. This water right is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.
18. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

MEMORANDUM FOR APPLICATION # 2813

To: Water Right(s) 35-7169,35-7373,35-10422

From: Catalina Beck Technical Records Specialist I

Date: March 4, 2024

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: JR Simplot Company applied for application 2813 received on November 11, 2023. The proposed lease is a portion of the water rights 35-7169,35-7373,35-10422 (53.1 acres,212.2AFA,0.78 cfs). The same portion has been leased to the Water Supply Bank (WSB) from 2009 through 2023(lease applications 571, and 1126).

Groundwater is the main source of water for water rights 35-7169,35-7373,35-10422 and is diverted through underground pipelines to the place of use of the wells for irrigation use. Water rights 35-7169,35-7373,35-10422 are in the Eastern Snake Plain Aquifer Groundwater Management Area (ESPA GWMA).

AUTHORITY TO FILE: The application was signed by James B Alderman who is Sr. V.P and Secretary for J.R Simplot Company. There are no concerns with the authority to file at this time.

WATER RIGHT VALIDITY: The water rights 35-7169,35-7373,35-10422 were decreed in 2002. The portion of the water right was previously leased to the Water Supply Bank (WSB) from 2009 through 2023. The right has been protected through leases to the WSB. Water right 35-10422 is an expansion right of the other two rights. No concerns with the validity of the water rights and portion offered to the bank.
