MEMORANDUM FOR APPLICATION # 2705

To: Water Rights 63-3289, 63-3309, and 63-32544
From: Shilynn Novak
Date: June 6, 2024
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: Lease Application 2705 was received by the Department August 1, 2023. Brian J. Good filed the application to protect his three water rights (63-3289, 63-3309, and 63-32544) by leasing the full water rights into the Water Supply Bank (Bank). Mr. Good requested to lease the rights from 2023 until the end of 2027.

AUTHORITY TO FILE: According to Department records, Brian J Good is the current water right owner of all three rights.

During initial review, the water right Place of Use (POU) for 63-3309 did not correspond with the 2014 ownership change that resulted in a split. The ownership should have resulted in 20 acres in the NESE of Sec 20 (in 01N 02W) and 10 acres in the SWNW of Sec 21, but the number of acres in the QQ were swapped around during data entry. The warranty deed and three water rights were reviewed, and acres were updated.

WATER RIGHT VALIDITY: The partial decrees for the three rights were issued in 2009. These rights allow for irrigation of 110 acres and the applications for the lease indicate a well and mainline were used in 2017 to provide irrigation. (See supporting imagery.) Using a combination of aerial imagery and Landsat data, the water right POU appears to have been irrigated in 2017. The lease application was filed in the 6th year of non-use. Multiple Program Memo #2 directs staff to accept water rights into the Bank after a period of 5 years of non-use has occurred if the application is filed in the 6th year.

Although 5 years nonuse occurred, IDWR policy allows acceptance into the Bank

INJURY TO OTHER WATER RIGHTS: Lease of this water right would not cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE: These rights are stacked with each other and are leased to the Bank. These rights are outside of the Boise Kuna Irrigation District service boundaries. Leasing these rights together does not enlarge the use. No concerns about enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PD is not subject to a Water District. Western Regional Office will be sent a request for comment about this lease.
