Transfer No. 89462

**WATER RIGHT NO. 63-32024**  
**As Modified by Transfer No. 89462**

**CONDITIONS OF APPROVAL**

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.
2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.
3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.
6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from 12 wells at the Memorial Park Well Field located in T04N, R03W, S28, NENE.
7. The partial decree dated 05/01/2012 authorized the following additional wells as points of diversion under this right:
  - Well 13 located in T03N R02W S6 L5(SWNW)
  - Well 4B located in T04N R03W S15 NENE
  - Well 8 located in T04N R03W S21 SESW
  - Rose Garden 1 located in T04N R03W S22 NENE
  - Rose Garden 2 located in T04N R03W S22 NENE

Transfer No. 89462

**WATER RIGHT NO. 63-32032**  
**As Modified by Transfer No. 89462**

**CONDITIONS OF APPROVAL**

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.
2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.
3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.
6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Rose Garden 5 located in T04N, R03W, S22, NENE.
7. The partial decree dated 12/31/2009 authorized the following additional wells as points of diversion under this right:
  - Well 13 located in T03N R02W S6 L5(SWNW)

Transfer No. 89462

**WATER RIGHT NO. 63-3441**

**As Modified by Transfer No. 89462**

**CONDITIONS OF APPROVAL**

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.
2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.
3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.
6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Caldwell Well No 6 located in T04N, R03W, S27, NENE.
7. The partial decree dated 02/08/2010 authorized the following additional wells as points of diversion under this right:

10. Transfer 89462 authorizes the following additional well as a point of diversion under this right as of the date of the approval: Well 22 located in T04N R03W S33 SWSW.
11. This right does not grant any right-of-way or easement across the land of another.
12. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.

**WATER RIGHT NO. 63-31550**  
**As Modified by Transfer No. 89462**

**CONDITIONS OF APPROVAL**

13. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
14. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
15. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

### **Transfer Approval Notice**

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Rights. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Rights is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. ## **EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

### **PETITION FOR RECONSIDERATION**

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

### **EXCEPTIONS AND BRIEFS**

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

### **REQUEST FOR HEARING**

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

### **ORAL ARGUMENT**

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

## **MEMORANDUM**

**TO** Transfer 89462 water right files  
**FROM** Cody Parker, Bob Howe  
**RE** Evaluation of application for transfer 89462  
**DATE** June 9, 2025

---

Application for transfer 89462 was submitted in its complete form on December 20, 2024. The applicant, the City of Caldwell (“City”), proposed to add a new well (identified as “Well 22”) to 30 water rights.

The application was advertised with a protest deadline date of March 24, 2025. The application was not protested.

In an email dated June 9, 2025, Ashley Newbry requested to remove water rights 63-3484, 63-7900, and 63-10674, leaving 27 water rights as part of the transfer.

### **AUTHORITY TO FILE**

The City is the owner of record for all water rights involved in the transfer. The application was signed by Robb MacDonald, Public Works Director, and Ashley Newbry, Deputy Public Works Director for the City.

The proposed well will be drilled on parcel R3568200000, which appears to be owned by the City.

The applicant has the authority to request the changes proposed by the application.

### **WATER RIGHT VALIDITY**

The water rights involved in the transfer authorize the use of ground water for municipal purposes within the City’s service area. It is unlikely the City has diverted less water than its customers have demand for. Therefore, the rights are presumed valid.

### **INJURY TO OTHER WATER RIGHTS**

The proposed well will have a water bearing zone of 200 to 500 ft. There are several other wells in the area surrounding the proposed well location. On approval of the transfer, each water right will have conditions identifying both the originally-authorized point of diversion and points of diversion added through subsequent processes. These conditions are necessary to prevent injury to existing water rights through either local well interference or the dilution of priority of other water rights in the event of limited regional curtailment.

### **ENLARGEMENT OF USE**

Water rights 63-3484 and 63-7900 (collectively “irrigation rights”) authorize the use of ground water for “Municipal”. The partial decree for 63-3484 lists acreage values, a season of use from 03/15 to 11/15, and the “shoulder season condition” allowing the use of water under the right to

begin on March 1. It is clear that, while the term used to describe the beneficial use authorized by 63-3484 is “municipal”, the actual beneficial use is the irrigation of 100 total acres. Similarly, a condition of approval for 63-7900 says “*Municipal use is for the irrigation of the Fairview Golf Course*”.

If the City were allowed to divert the irrigation rights from a well shared with the other municipal water rights, the irrigation rights may be enlarged. To prevent enlargement, the City would need to configure the system at Well 22 such that the rate authorized by the irrigation rights was not diverted unless the lands appurtenant to those rights were being irrigated. In the June 9, 2025 email from Ashley Newbry referenced above, the City decided to remove these water rights from the transfer to avoid enlargement concerns.

## **LOCAL PUBLIC INTEREST**

The application was advertised and was not protested. There is no information to suggest the changes proposed in the application conflict with the local public interest.

## **BENEFICIAL USE/CONSERVATION OF WATER RESOURCES**

The applicant intends to continue to use the rights involved in the transfer to provide water to customers for municipal purposes. No concerns.

## **DISCUSSION**

### **Condition 102**

The City’s municipal service area boundary overlaps with the place of use for several irrigation companies. In general, it is the policy of IDWR to apply condition 102 to municipal water rights in a transfer to discourage the replacement of surface water use with the use of ground water for irrigation. Condition 102 is applied to all rights involved in the transfer.

### **Conditions 212 and 01Q**

Conditions 212 and 01Q are applied to all water rights involved in the transfer. Condition 212 requires the City to install and maintain measuring devices at each point of diversion prior to the use of water. Condition 01Q requires the right holder to record and report diversions to the Department upon notification. The standard language for 01Q provides the opportunity to “...enter into an agreement with the Department to use power records to determine the amount of water diverted” However, if a measuring device will be in place at each point of diversion per condition 212 then the Department prefers to get readings from those devices if necessary. Condition 212 and 01Q are included on each water right in the transfer. Condition 01Q has been modified to read:

After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

### **APOD conditions**

A prior transfer (no. 85741) added conditions to each of the water rights involved in the transfer to identify those APODs added by the transfer. The same has been done to show that Well 22 was added through transfer no. 89462.

Prior to the transfer approval, the APOD conditions for the water rights did not account for those APODs that were added by the partial decree. Language has been added to identify which APODs were added by the partial decree for each water right.

Cody,

Let's move forward by not adding this new POD (Well 22) to any of Water Right 63-10674, Water rights 63-3484 and 63-7900. I understand that it causes concern for those POD's of a different type of municipal use. That seems like the cleanest option.

Thank you,

**Subject:** Re: City of Caldwell Transfer

Ok thank you for clarifying. Here are the reasons I ask:

1. Water right 63-10674 is for regular municipal use, but only lists 1 POD in the SESE of Sec 28, T05N R03W. This point of diversion is not associated with any of the other water rights in the transfer. Following approval of the transfer, this water right will only have one point of diversion in common with the other municipal water rights in the transfer.

2. Water rights 63-3484 and 63-7900 are for irrigation of specific golf courses even though the beneficial use is generally called "MUNICIPAL". Adding Well 22 as a point of diversion to these water rights poses enlargement concerns. The issue is that, because Well 22 will be part of the integrated municipal system, and likely serves purposes other than irrigation of the golf courses, it would be impossible for the City to ensure that water diverted under these two water rights is used exclusively for irrigation of the golf course.

For the first item, I can add Well 22 to the water right, but the City will not be able to use the water right at any of the City's other wells (other than the 1 already authorized, which none of the other water rights share).

For the second item, the transfer can be accomplished if the quantity authorized by the two water rights is **reduced** to the historical consumptive use. This option would effectively change the nature of use from irrigation-specific municipal use, to a general municipal use. Alternatively, you may remove these two water rights from the transfer avoiding enlargement concerns, and the golf courses may still be irrigated using Well 22 under any of the municipal rights that are not irrigation-specific.

Please let me know how you would like to proceed.

Thank you,

Cody Parker

Cody,

Yes, the transfer is only intended to add well 22 to our existing portfolio of MPOD rights.

Hi Cody,

1. You are correct that this well serves Fairview Golf Course for irrigation.
2. You are correct that this well serves Purple Sage Golf Course for domestic (Club House) and for Irrigation.

Hey Ashley,

I am down to the last three water rights in this transfer and was hoping you could answer a few questions to help me wrap it up:

1. Water right 63-7900 currently has two points of diversion in the SWNW of Sec 27 T04N R03W. These don't appear to be wells shared with the majority of the other water rights in the transfer. Can you confirm that the transfer should just add the single new well (No 22) to this water right? This water right appears to be for irrigation of the Fairview Golf Course.
2. Water rights 63-3484 and 63-10674 currently have a single point of diversion in the SESE of Sec 28 T05N R03W. Can you confirm the same as above for these water right? This water right appears to be for irrigation of a specific area, possibly the purple sage golf course.

Please let me know what the plan is with respect to these water rights. I will continue finalizing the processing once I get your reply.

Thanks!

**City of Caldwell Transfer 89462-Updated Shapefile Requested**

**From** Howe, Bob <Bob.Howe@idwr.idaho.gov>

**Date** Thu 4/10/2025 1:31 PM

**To** Ashley Newbry <anewbry@cityofcaldwell.org>; Robb MacDonald <rmacdonald@cityofcaldwell.org>

Good Afternoon,

The Department received Transfer Application 89462 from the City of Caldwell, adding a POD to about 30 rights held by the City of Caldwell. In Part 3, Section C. 4. of your application you stated that "GIS shapefile may be updated if IDWR desires". Thank you for notifying the Department that there is an updated shapefile available for the City of Caldwell municipal service area.

Please submit the updated GIS shapefile so it can be included in the draft Transfer Approval 89462 for the City of Caldwell. I am hoping to have the draft completed within the next week. However, changing a sizable shapefile on 30 rights will take a considerable portion of that time. I will put the data entry for the transfer on hold until the GIS shapefile is received, so that we can accomplish both adding the point of diversion and updating the POU simultaneously. Feel free to reach out with any question or concerns.

Regards,

**Bob Howe**
