4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

WATER SUPPLY BANK LEASE CONTRACT No. 1898

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right no. 34-14529 is an enlargement of 0.5 acres within the place of use described for the right.
13. Water right nos. 34-14526, 34-14527, 34-14528, & 34-14529 are limited to the irrigation of a combined total of 4.0 acres and a combined diversion rate of 0.10 cfs in a single irrigation season.
14. Water right 34-14529 is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to section 42-1426, Idaho Code, the earlier priority right is the superior right.
15. The period of use for irrigation described above may be extended in seasons of unusual characteristics to a beginning date of 04-20 and an ending date of 10-31 at the discretion of the director of the Idaho Department of Water Resources for water rights 34-14526 & 34-14527.

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2028** unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:
"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

for
Water Supply Bank

Jean,

I got the consent letter. See attached. It took some work as there's all new board members and general manager for the district and they needed to understand a few things first. But we got there.

Thanks for your patience.

Good morning, Kristin,

There is not an active lease contract for 2024 from which to rent from, so there is not a warrant payment for 2024.

The newest lease application 3047 with a request to begin in 2024 is "On Hold" for what appears to be a lack of consent from Big Lost Irrigation District for the Surface Water rights offered. The draft of the review memo includes the statement that "Water Rights 34-14526 and 34-14527 are surface water rights delivered through a private ditch upstream from the Lower Burnett Diversion Structure in the Big Lost Irrigation District system. Waiting on consent."

Best,

Mary

Narrative: The Department received these applications on September 16, 2024. The applications state that a portion of the water rights is offered to the Bank due to a pending ownership change and split of the water rights. The ownership change was completed October 7, 2024, so the entirety of all rights is being offered to the Bank. The parents of these rights were decreed in 2009 (14526), 2009 (14527), 2001 (14528) and 2001 (14529). The rights have been in the Bank since 2014. There are no issues with forfeiture. These rights completely overlap each other and are limited to 4.0 acres and 0.1 cfs in a single irrigation season. Water Rights 34-14526 and 34-14527 are surface water rights delivered through a private ditch upstream from the Lower Burnett Diversion Structure in the Big Lost Irrigation District system. Waiting on consent. (Received June 18, 2025) Water rights are currently within WD 34.
