STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESTransfer No. 87899

APR 14 2023

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFERDepartment of Water Resources
Eastern Region

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) Stephanie Jo Mickelsen, Mark Mickelsen, Mickelsen Properties LLCCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes ☐ N/A ☐ * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at idwr.idaho.gov/water-rights/transfers/resources.html.
- ☒ ☐ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☒ ☐ #10 Part 1.A.3 Narrative is attached. This application is for the "QP South" transfer described in Part 1.A.3. 2)
Part 1.B.4 Place of Use list is attached. 3) GIS files available upon request.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
No change to diversion works are needed or proposed at any POD. All PODs are under jurisdiction of WD110 watermaster and will be equipped and maintained per her/his instructions. Distribution system will be modified to connect PODs to proposed Permissible Place of Use.

- b. Who owns the property at the point(s) of diversion? Applicant
 If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? **If yes, ☒ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien:**

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?
If yes, ☐ complete Attachment WSB.
- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
No changes to total irrigated acres or their locations.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
The PPU will include other rights as described in the accompanying transfer applications listed in attached Part 1.A.3

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- | | | |
|-------------------------------------|-------------------------------------|---|
| ☐ | ☒ | undergone a period of five or more consecutive years of non-use, |
| ☐ | ☒ | currently leased to the Water Supply Bank, |
| ☒ | ☐ | currently used in a mitigation plan limiting the use of water under the right, or |
| ☐ | ☒ | currently enrolled in a Federal set-aside program limiting the use of water under the rights? |

If yes, describe:

Rights are subject to the Jefferson Clark Ground Water District participation in the 2015 Idaho Ground Water Appropriators / Surface Water Coalition Settlement, which has been used similarly to a Mitigation Plan. The proposed transfer will not affect the rights' treatment under the District's allocation mechanism.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a.**
- ☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (**GIS**) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b.**

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a.**

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b.**

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

None of the rights are supplemental.

Part 1.A.3

Overview

The applicant owns two tracts of contiguous farmland in Administrative Basin 31, irrigated from groundwater under a series of water rights with varying priority dates. Currently, groups of one to four Points of Diversion (PODs) each serve a Place of Use (POU) comprised of one or more center-pivot irrigation systems. Some PODs also serve small fields irrigated with handline or wheelline sprinkler systems.

The applicant's desire is to interconnect the piping systems so that in the event of pump or well failure, or in the event of curtailment under prior appropriation water-right administration, physically- or administratively-available water can be applied to high-value crops, and irrigation can cease on lower-value crops.

Attached Part 1.A.3 Figure 1 provides an overview of the plan. The "Hamer South Central" group would be comprised of two wells and two center pivots, and is the subject of a single Transfer Application. It is not proposed to be interconnected with the other groups due to easement complications and will not share any common elements with the other transfers; it can be processed independently of the other transfers. The other 10 groups are more complex; all the groups would be authorized to deliver via interconnected piping system(s) to the same "Large Group POU" illustrated in Figure 1, but each group would allow diversion of the associated water rights only from a smaller group of linked PODs. In Figure 1, each of the POD groups is identified by a unique symbol and group name, and each is associated with an underlying Transfer Zone.

The design of the Transfer Zones and assignment of PODs to groups eliminates material effect to river and spring reaches that are hydraulically connected to the Eastern Snake Plain Aquifer by ensuring that all linked PODs in a given Transfer Application are located in adjacent Enhanced Snake Plain Aquifer Model Version 2.2 (ESPAM2.2) model grid cells. The result is that there will be no appreciable change in the effective mean location(s) of groundwater pumping resulting from the Transfers individually or collectively.

Part 1.A.3 Figure 2 removes the Transfer Zones and provides the Public Land Survey System information.

None of the transfers seek to change or add either PODs or POU that are not already part of the applicant's systems; they simply seek to add flexibility in management for the existing PODs and POUs. No new wells are proposed to be drilled. No new acres are proposed to be irrigated.

Table 1 through Table 11 summarize the PODs proposed to comprise each group. A blank space is provided for Idaho Department of Water Resources (IDWR) to insert a transfer application number if desired.

** Rocky Mountain Environmental Associates, Inc. (RMEA) edited the GIS for this POD. The update in the Geographic Coordinate Database (GCDB) data placed the IDWR-mapped POD in a different quarter-quarter than listed on the water rights. However, the 2021 USDA NAIP aerial imagery appeared to place the POD a few meters north, moving it back into the listed QQ. RMEA moved the GIS point to the NAIP-indicated location, which is in the listed quarter-quarter. There has not been nor is there a desire to change the physical POD.

Specific Detail

This Transfer Application is for the QP South group of PODs described in Table 10, and associated with the Large Group POU mapped in Part 1.A.3 Figure 1 and Part 1.A.3 Figure 2.

Table 12 shows combined use limitations for “QP South” Group water rights.

- T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
- X27 This right is limited to the irrigation of 23 acres within the place of use described above in a single irrigation season.
- T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
- T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
- R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.
- R63 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
- R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
- 131 Prior to the diversion and use of water under Transfer approval 73324, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
- X35 Rights 31-11957, 31-11960 and 31-11962 when combined shall not exceed the irrigation of 84.8 acres.

Re: Application for Transfer of Water Right (Stephanie Jo Mickelsen, Mark Mickelsen, Mickelsen Properties LLC)

Idaho Department of Water Resources:

Rabo Agrifinance, LLC provides financing for Mickelsen Properties LLC and Stephanie & Mark Mickelsen for the Quality Pak Farm near Hamer in Fremont and Jefferson Counties. Collateral for Rabo Agrifinance LLC includes the following water rights:

See Attachments A&B

Rabo Agrifinance LLC consents to allowing Stephanie Jo Mickelsen, Mark Mickelsen, and Mickelsen Properties LLC to change the place of use of the above water rights to be utilized across their other owned farm ground. Please contact myself with any questions.

Sincerely,

Jake Kunz
Vice President

State *Idaho*
County *Bonneville*

Before me Charles Hopkins a notary for the State of Idaho, appeared Jake Kunz, Vice President for Rabo Agrifinance.
