If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

13-227, 13-2161.

12. Remarks:

Priority Date Explanation:

This is the date given on the decree. This use continues to this day. Some of the property within the place of use is owned by a neighbor. We have attached a lease agreement for the use of this water.

The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

Rights 13-227, 13-314 and 13-2161 when combined shall not exceed the irrigation of 125 acres.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 13A.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.
