**RE: RETURN OF RENTAL APPLICATION TO RENT WATER FROM THE WATER
SUPPLY BANK – AGREEMENT 921**

Dear Applicant:

The Department of Water Resources is closing your Application to Rent Water from the Water Supply Bank. A Rental Agreement was sent on April 23, 2025 with a cover letter that asked you to sign it and return it with the required rental fee within 14 days. On May 15, 2025 the department sent a second request to return the agreement and rental fee within 10 days. The signed agreement and rental fee have not been returned to the department. Therefore, the department is returning your application.

Diversion and use of the water right(s) is not authorized under the proposed agreement since it was not signed or executed by the department and the rental fee was not paid. Any use associated with your proposed rental request is not authorized and, if occurring, will be subject to any necessary enforcement action.

If you wish to rent water in the future, please reapply using new forms on the Department's website at www.idwr.idaho.gov. If you have any questions regarding this matter, please contact this office at (208) 287-4800.

Sincerely,

Aaron Olsen

for
Water Supply Bank

STATE OF IDAHO
WATER RESOURCE BOARD

RECEIVED

Sep 23, 2024

DEPARTMENT OF
WATER RESOURCESAPPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK**COPY**

Applicant Name: Christopher Saitta

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST

Check All Items as Either Attached (Yes) or Not Applicable (N/A)

Yes

- ☒ Completed *Application to Rent Water from the Board's Water Supply Bank*

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Christopher Saitta

Mailing Address 262 E Fork Rd., Hailey ID 83333

Street

City

State

Zip Code

Email Address chris@saittafamily.com

Phone Number 206-450-1718

- B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☒
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative _____ Professional Title _____

Organization _____ Relationship to Applicant _____

Mailing Address _____

Email Address _____ Phone Number _____

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

- A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Applicant seeks to irrigate and additional 1 acre on property.

- B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.02 CFS CFS	3.5 AF	0.02 CFS	3.5 AF	1.0 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

- C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
01/01/2025		☐ 1	☐ 2	☐ 3	☐ 4	☒ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Buried pressurized irrigation system provides irrigation water to property.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
Domestic Well	Ground Water	None

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 1 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

None. Applicant seeks to irrigate an additional 1 acre on property.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☐ No ☒

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL			
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☒ No ☐
If yes, describe:

Yes, will consider transfer of a water right should one become available.

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

No, seeking renewal of water supply bank rental agreement No. 438

- D. Additional Information

Seeking the rental of any available ground water right for the irrigation of 1.0 acre for a five year duration

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

**RE: REQUEST FOR RETURN OF SIGNED RENTAL AGREEMENT 921 AND PAYMENT
FOR WATER RIGHT(S) 37-22822 and 37-2644E**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources ("Department") mailed a **Water Supply Bank Rental Agreement ("Agreement")** for your review and signature on April 23, 2025. The signed agreement and annual rental fee has not been returned to the Department.

Please sign the rental agreement and return it with the rental payment in the amount of \$184.80 within ten (10) days of this letter to complete processing. Diversion and use of the water right(s) is not authorized under the proposed agreement until it has been signed by both the renter and the Department. Any use associated with your proposed rental request before it has been executed is considered unauthorized and, if occurring, will be subject to any necessary enforcement action.

If the signed rental agreement and fee is not received by the department within the 10-day period, the rental application will be returned, and the proposed rental right(s) made available for other rental applicants. You can reapply to rent water from the Bank again in the future by submitting a new rental application form that will be processed in turn with other pending applications.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 287-4800.

Sincerely,

Aaron Olson

for
Water Supply Bank

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 37-22822 and 37-2644E, AGREEMENT 921**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$184.80 per year was calculated based on the current rental rate of \$33.00 per acre-foot times a diversion volume of 5.6 acre-feet.

Please send a check for \$184.80 for 2025 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or \$166.32 of the rental fee will be paid to the lessor(s) and 10% or \$18.48 will be retained by the Department to offset administrative costs for **2025**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Aaren Olson

MEMORANDUM FOR AGREEMENT # 921

To: Water Right(s) 37-2644E, 37-22822

From: Aaron Olson

Date: 2/27/2025

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

The Water Supply Bank (WSB) received rental application 3059 on September 23, 2024, on behalf of Christopher Saitta. The application did not identify specific water rights but requests a renewal of the previous agreement which expired in 2024. The application requests irrigation of 1 acre around a home. Water rights 37-2644E and 37-22822 were used to satisfy the previous rental agreement and have again been offered for lease to the bank for a term 5-year term of 2025 to 2029. The two rights share a place of use for irrigation while right 37-2644E is sourced from ground water and 37-2822 from Greenhorn Creek. There are no conditions stating that the ground water right is supplemental to surface water. The two rights share a combined limit of 13.5 acres of irrigation with water rights 37-153C, 37-2644C, 37-2644D, 37-22826 and 37-22827 which are on adjacent parcels.

The water rights are within the Snake River Basin Moratorium Area, Big Wood River Moratorium Area, Big Wood River Ground Water Management Area, and the Galena Ground Water District.

AUTHORITY TO FILE:

The application was signed by the applicant Christopher Saitta. Blaine County parcel data shows that the owner of the land appurtenant to the proposed place of use and point of diversion is The Christopher L Saitta Living Trust. Christopher is a trustee and has authority to file the application.

WATER RIGHT VALIDITY:

Water rights 37-2644E and 37-22822 were both decreed September 24, 2010, and the rights have been leased to the Water Supply Bank continuously since 2015. Review of aerial photography shows no evidence of irrigation while the rights have been in the bank and that the lessor has complied with their lease contracts. There are no concerns with validity of the water rights.

INJURY TO OTHER WATER RIGHTS:

The proposed point of diversion is a well approximately 3 miles in distance from the lease point. The leased right and proposed rental are both within the boundary of the Big Wood River Ground Water Management Area, Water District 37, and Galena Ground Water District. Use of the water under this agreement will be administered by the Watermaster of Water District 37. Information regarding review of potential injury to other water rights from previous rental agreements is included below:

Water right 37-22822 authorizes diversions of surface water from Greenhorn Creek for irrigation of up to 5.6 acres of a residential property in Gimlet, and water right 37-2644E augments the Greenhorn Creek water right with irrigation from ground water of up to 3.5 acres within the 5.6 acres. There are no supplemental conditions on water right 37-2644E, and it can therefore be used as a primary water right, provided that a proportionate amount of 37-22822 is also rented.

The distance between the two leased water rights and the rental location is approximately 3 miles and Wood River Valley ground water modeling information suggests that this rental will slightly increase Big Wood River surface water depletions above the City of Hailey but decrease depletions south of Hailey. As such, this rental is permissible, subject to the right of prior appropriators to petition for a modification of the rental, if it can be demonstrated that the rental is causing injury.

ENLARGEMENT OF USE:

There are no additional water rights for irrigation use overlapping the proposed place of use or point of diversion. The proposed point of diversion is a well that was drilled for domestic use and is only used for domestic water right 37-10703. 37-2644E is sourced from ground water and does not have a condition that makes it supplemental to 37-22822. Because water rights 37-2644E and 37-22822 are overlapping and are part of a larger combined use limit with several other rights a proportionate amount of the two rights will need to be rented to prevent enlargement. The application proposes 0.02 cfs and 3.5 af to irrigate 1 acre using ground water, the proportionate amount of surface water right 37-22822 that will need to be rented is 0.09 cfs, 5.6 af, and 1.6 acres.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The water rights are within the Southern region, and Water District 37. Requests for comment were sent to the Southern Regional Manager, and the Water District 37 Watermaster on February 26, 2025. No comments of concern were received.

I'd like to renew my Water Rental Agreement for my house at 262 East Fork Rd. Hailey ID 83333. Please accept the attached application ("Application to Agreement 438 2024-2029") to rent water from the Board's Water Supply Bank. I've attached the previous application ("Application to Agreement 438 2020-2024") to include the required maps etc. Hopefully they will suffice as nothing has changed and I'm simply trying to renew. Please let me know if there is anything else you need from me.
