Re: Change in Ownership for Water Right No(s): 17-2042

Dear Water Right Holder(s):

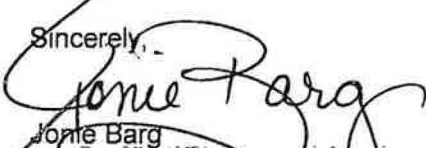

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 497-3787.

Sincerely,

Jonie Barg

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING AN
APPLICATION FOR TEMPORARY APPROVAL OF WATER USE**

Idaho Code § 42-202A authorizes the Idaho Department of Water Resources to grant temporary approvals for water uses of short duration. Application must be made on Department Form 202A and must be accompanied by a \$50 non-refundable application fee.

You may want to consider the following items before submitting an application for temporary approval:

- The total amount of water that can be requested for prevention of flood damage, ground water recharge, and ground or surface water remediation is not limited. For all other uses, the total amount of water that can be approved under a temporary approval cannot exceed 5 acre-feet, which is equal to 1,630,000 gallons. Applicants must attach a detailed description of the proposed temporary water use.
- Temporary approvals may not exceed one year in duration.
- Use of water under a temporary approval is subject to all existing water rights. The applicant assumes all risk that the temporary approval may injure other water rights. If the temporary use will divert water within a water district, the Department must consult the watermaster before granting approval. Applicants may save time by consulting the watermaster themselves and attaching the watermaster's written comments to the application.
- The Department may issue a temporary approval with conditions necessary to protect other water rights and the public interest.
- A temporary approval does not authorize the use of privately owned diversion and/or conveyance facilities without the permission of the owner of such facilities. Evidence of the necessary permission must be attached to the application.
- The Department may cancel its approval or reduce the rate of flow or volume authorized by its approval. For example, the Department may cancel or reduce an approval if it concludes the water use is injuring other water rights or adversely affecting fish, wildlife or other public values.

Your completed application and fee may be submitted to one of the following offices of the Department:

RE: Notice of Security Interest for Water Right/Permit No(s): 17-2042

Dear Security Interest Holder:

The Department of Water Resources (Department) acknowledges receipt of correspondence adding security interest of the above referenced water right(s) to you. The Department has modified its records to reflect the change in security interest and has enclosed a computer-generated report for you.

Please note according to the information filed with the department the current owner of the water right 17-2042 is Crosby A Glenn. According to your application the current owner of the water should be Darin and Joellen Peterson. In order for the department to update the ownership to reflect Darin and Joellen Peterson as the current owners a Notice of Change in Water Right Ownership, evidence of ownership, and filing fee is required.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Security Interest, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

If you have any questions concerning the enclosed information, please contact me at (208) 525-7161.

Sincerely,

Cher Ramos
