Michael,

Dennis Cunningham and I spoke with you via phone several weeks ago regarding this water right. We were all trying to save our priority date associated with the water right. You were going to get back with us on how to proceed or if there is anything to do on our end. Can you let me know where you are at in this process.

Thanks,

Kevin A. Koesel, P.E.

Subject: Water right claim for 27148 State Highway 57, Priest Lake

Hello Mr. Cunningham,

Per our discussion yesterday, I have attached two maps to this email. One map has an area approximately ½ acre in size outlined in red; this is simply to give you an idea of how much area could be irrigated under a de minimis domestic water right. This is just a hypothetical polygon, not any sort of indication of where you would have to irrigate. The second map is for you to indicate where irrigation from the pond currently takes place, please mark the map as appropriate and return to me; that will help determine which type of water right is most appropriate for your use.

Please also provide the maximum depth of the pond, if possible. If the maximum depth is unknown it may necessitate a field exam by IDWR staff to ascertain that number.

If you have any questions please don't hesitate to contact me.

Thank you,

Michael Thompson
