The proposed exchange will injure our rights & others with rights due to the limited resources available to existing users.
The addition of another user will be contrary to the conservation of Idaho's, and our water resources by depleting the resource in its entirety. As stated having another user will conflict with local public interest by putting too much strain on an already limited resource. We use this resource for our irrigation and livestock needs and have been nearly dry or curtailed most every year even without the strain of more users pulling from this resource

(Additional pages may be attached to describe the basis of your protest.)
Identify any review criteria that are not a basis for your protest:
