WATER SUPPLY BANK LEASE CONTRACT No. 2033

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
13. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

MEMORANDUM FOR APPLICATION # 3236

To: Water Right 37-23144
From: Izzy Crichton
Date: 6/17/2025
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Water Right lease application was received on June 4, 2025. The application proposes to lease the entirety of Water Right 37-23144 for 5 years from 2025-2029.

AUTHORITY TO FILE:

The application was submitted and signed by Henry Vigil. Water Right records show Mr. Vigil as the current owner of Water Right 37-23144. Blaine County tax lot data shows the land appurtenant to right 37-23144 is also owned by Henry Vigil under parcel number RP000660000010 and was recently updated on March 1, 2025. There are no concerns regarding the authority to file for the lease of Water Right 37-23144 into the Water Supply Bank.

WATER RIGHT VALIDITY:

Water Right 37-23144 is a split from right 37-2055. 37-2055 was decreed in 2011 for 80 acres of irrigation within an 82.2-acre area. 37-2055 was leased into the Bank from 2014-2018. In December of 2018 a 3-acre portion of 37-2055 was split in a change in ownership and given the number 37-23144. 37-23144 was then leased into the Bank from 2019 to 2024 under lease contracts 892 (1 year), 1115 (2 years), 1448 (2 years), and 1816 (1 year). 1816 is the most recent lease and concluded on December 31, 2024. No concerns with validity of the water right and portion offered to the Bank.

INJURY TO OTHER WATER RIGHTS: Water Right 37-23144 is not combined limited with any other Water Rights. The lease of this Water Right would not cause injury to other Water Rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE:

GIS shapefiles for 37-11445 and 37-23144 POUs appear to overlap. However, 37-11445 authorizes 1.5 acres of irrigation within a 55.6-acre place of use. This Water Right is likely not used on the same 3 acres authorized by 37-23144.

Two other Water Rights POUs (37-892 and 37-891A) authorize irrigation at the same location as Water Right 37-23144. 37-892 and 37-891A are owned by Upper Wood River Water Users Association Inc. On the application, the applicant states that no other rights are used to irrigate the land which will be idled through the lease. A review of aerial imagery of the area appurtenant to 37-23144 found no evidence of irrigation since the parent right (37-2055) was decreed, and the decree doesn't mention the rights 37-892 and 37-891A. There doesn't appear to be any enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location for the rental POD is subject to Water District 37, SRBA Moratorium, and the Big Wood River Moratorium. Comments were requested from IDWR southern regional manager and District 37 Watermaster on 6/17/2025
