H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office exam because it is for irrigation of 5 acres or less. The exam was conducted on April 29, 2025, by Jared Klay. At the time of the exam, ownership of the permit is in the name of Andrew & Darlene Gorton. The permit was originally in the name of Winston & Carla Cook, but an ownership change was received by the department on 4/3/2025. Current Bonner County taxlot data represents the current permit holders own the land appurtenant to the place of use (POU) and point of Diversion (POD). Proof of Beneficial use was submitted on October 24, 2023.

The place of use was described as 2 acres on both the application and the permit. However, after further review using Bonner County aerial imagery, Google Earth Imagery, and GIS data, the place of use was actually measured to be 1.0 acre. Thus, I am recommending 1.0 acres for the place of use and 0.03 cfs for the diversion rate. I am not recommending volume, as this use is exempt from volume reporting requirements as per the Beneficial Use Rules.

All the conditions of this permit have been met. Condition 004 will be dropped because there are no property concerns. All other conditions on the permit will be carried over to the license.

Have conditions of permit approval been met? ☒ X Yes ☐ No
