10. In which counties are lands listed above as the place of use located? Caribou

11. Do you own the property listed above as place of use? Yes (X) No ()

If "no" explain in Remarks

12: Describe any other water rights used at the same place and for the same purposes as described above.

A beneficial use claim is filed for earlier priority date for this same use and Place of Use. Ream Crockett canal shares also are used on the same Place of Use.

or None ()

¹ "IS" is used for "Irrigation Storage." The instructions do not provide a code for this use.

² IDWR's assignment of QQs to official Govt. lots has resulted in parts of Lot 4, Section 26, being assigned to two different QQs. It also has resulted in duplicate designation of SESW and SWSE in Section 26. A shapefile describing claimed POU is available by request from contorwater@gmail.com or kristin.rmea@gmail.com.

³ See Footnote 2.

13. Remarks (include an explanation of the priority date selected):

Remarks to aid in claims review:

1. This is an amended claim at IDWR's request, to refine mapping and description of POU.
2. Priority date: Per license

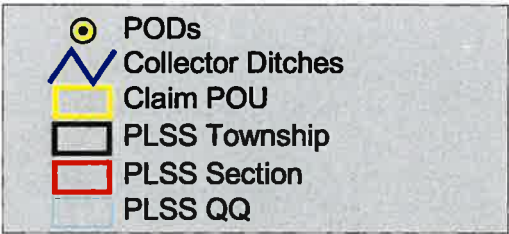

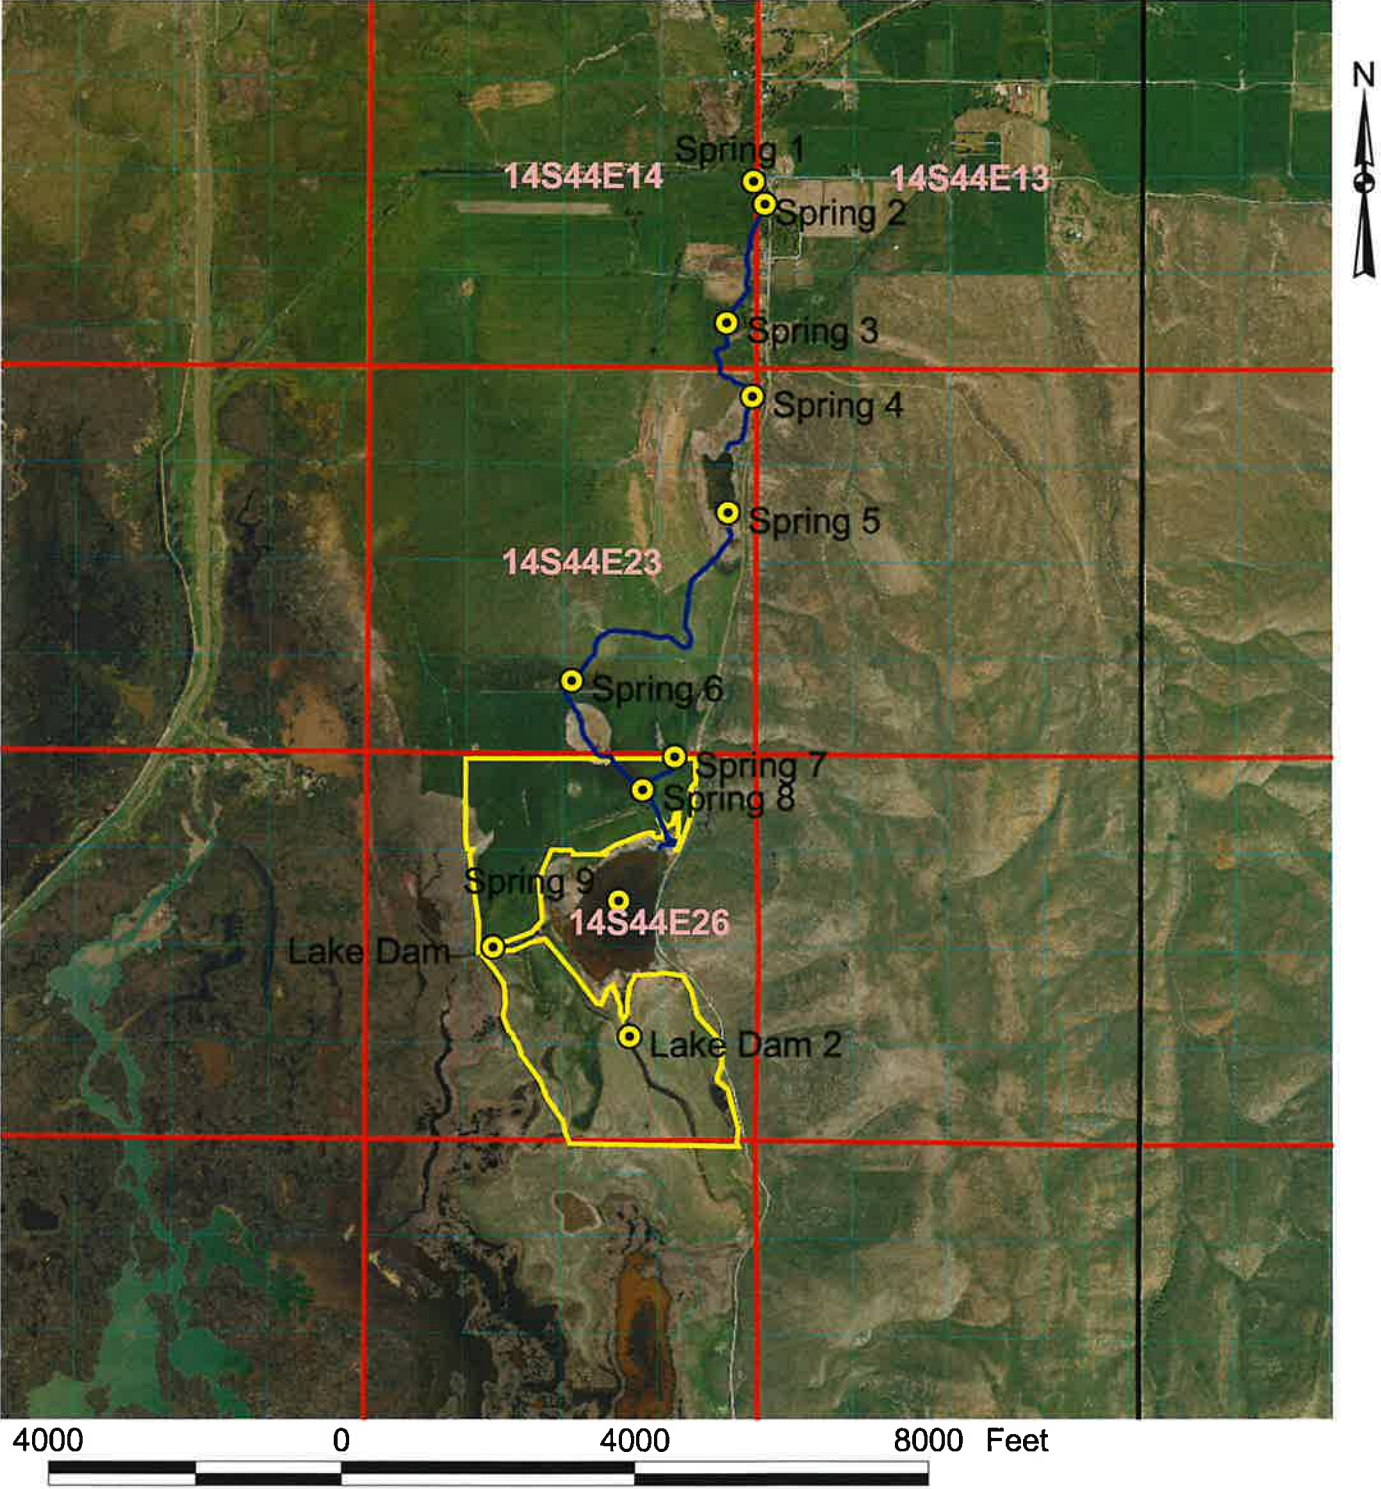

Per discussion with IDWR staff in Preston, an accompanying Beneficial Use claim is filed to realize the evidence of earlier priority that is found in the backfile to 11-2151.

3. The points of diversion labeled "Spring 1" through "Spring 9" list the QQ sections where the collector ditch intercepts dispersed springs and diffuse seepage. The points of diversion "Lake Dam" and "Lake Dam 2" identify locations where the storage water is impounded.
4. Quantities under this claim and the accompanying Beneficial Use claim are not additive.
5. Place of use was trimmed to Bear Lake County parcels, which do not align exactly with IDWR QQ section lines.
6. The upper portions of the same collector ditch are used by the right claimed as 11-4103 by a different claimant.
7. No additional fee is provided, as the original fee of \$375 exceeds the fee that would be calculated for the uses tabulated in this amended claim.

Conditions necessary to the definition and administration of the right.

Re: Bear River Basin Adjudication Claims – Florence Ream Living Trust

Dear Ms. Marion Beck,

This letter accompanies a check for two Adjudication claims for the Florence Ream Living Trust, which were transmitted electronically, along with GIS shapefiles to aid in review of the claims. One of the claims is an amendment of a previously submitted claim for water right 11-2151. The second claim is for an overlapping use and therefore, the acres have already been paid under claim 11-2151. The attached check covers the claim fee of \$50 for the new claim and an additional fee of \$5 for the stockwater portion not previously covered.

In addition to responses to be provided to the claimant, please copy Rocky Mountain Environmental Associates, Inc. (RMEA) at kristin.rmea@gmail.com with a copy of the receipt and copies of the first page of the new claim, showing the numbers assigned by IDWR.

Please contact our office with any questions regarding these claims.

Thank you,

Kristin Moore
