Subject: Water Right Claim No. 97-4203

Hi Kevin,

I have been assigned to help with the review and recommendation of the claim submitted for Dennis Cunningham (97-4203). It appears we are looking at needing to amend the claim to include the storage pond and that we were going to help calculate what is needed for the claim to facilitate a storage component. What is the maximum depth of the pond? This figure will help me calculate the storage capacity of the pond. I also think we are still wanting to see a place of use mapped out to show the area and acres where irrigation will occur using water from the pond.

Thank you,

Jared Adamson
