Re: Narrative for Application for Transfer - POD submitted on behalf of Pancheri Inc.

Dear Idaho Department of Water Resources (IDWR) Representatives:

Attached to this letter is an *Application for Transfer of Water Right - POD* (Application) submitted by Rocky Mountain Environmental Associates (RMEA) on behalf of Pancheri, Inc. (Applicant). The Application proposes to add a new diversion on the Little Lost River to allow the Applicant to divert water upstream of their current points of diversion (PODs) and thereby gain the benefit of gravity feed into their existing pipeline systems. The remainder of this letter will address nuances in the attached Application that require explanation.

Proposed Diversion System

The Applicant plans to construct a new head gate and approximately 36 in. pipe to divert water from the new POD to existing infrastructure. The headgate will also include a rotating screen with submerged orifice or weir for measuring the diversion. The locations of the proposed headgate and pipes are shown in Map 1. The new POD will be in addition to existing PODs associated with individual Water Rights, locations are shown in Map 2. The place of use (POU) and nature of use of the existing water rights will not change. The purpose of these changes is to take advantage of water flow due to gravity. The lower diversions will remain in place and be used when needed. No additional water will be diverted from the Little Lost River.

Ownership

The proposed POD will be built on land owned by the Bureau of Land Management (BLM). Applicant has begun discussions with the BLM to obtain a right-of-way for the diversion and the pipeline. However, the BLM requires that the Applicant have a Transfer Application approved with IDWR before granting the right-of-way.

RMEA appreciates the opportunity to submit this application. Please feel free to contact us if there are questions or if refinement of the applications is required.
