Looks great. Thanks Michael.
Let us know the next steps when you have a chance,

Kind regards,
Annie and Jim

Annie and Jim,

The changes you requested have been completed. See attached map. The acres on your map were a bit short, so I made the shape bigger to get it up to 6 acres. Let me know if this works for you, or if you had something else in mind.

Michael

Thank you for getting back to us, Michael. And I apologize for not being clear on the map. We have only one well. The arrows are where we plan to irrigate the 6 acres with one well. Sorry for the confusion.

Kind regards,
Annie Hagan

Annie,

It's been a couple of weeks and I'm just now getting to this. Thank you for the map which illustrates the location of the well and the six acres you intend to irrigate. My recollection of our conversation is that you wanted to remove one of the two points of diversion from your irrigation right. Is that correct? I'm a little confused on that point because your map shows only one well location, but the phrase "2 points of diversion" is written on the map just east of your well location illustration. Please clarify if you want one point of diversion (well) or two on your water right. If you want 2 points of diversion, please send me an updated map showing the location of the second irrigation well.

Thanks,
Michael

Dear Michael,

Appreciate your time and expertise on the phone this morning. I have included the portion of site map at 6971 Bates Rd. for your review. The well is marked in green as well as the two diversion points arrows for irrigation. Please let us know if you have any questions or concerns.

Thank you!

Annie and Jim Hagan
