Re: Statement of Completion – Permit Number 75-14933 and 75-14934

To Whom It May Concern:

When we originally requested the permit for commercial use of our well, we had three tiny homes/RV hybrids we use for Airbnb rentals. We never used more than 0.04 cfs. Now, as of last November, we have one gypsy wagon (tiny home/rv) and one seasonal glamping tent; that figure will be cut in half from this time forward.

I note on the instructions for filing the statement that "A license examination fee is *generally* not required in connection with permits which use a ground water (well) source **AND** have a total diversion rate of 0.04 CFS or less or where the total volume stored is 4.0 AF per year or less. Idaho Code Section 42-221K states a fee is not required for domestic use that does not require a water permit."

Based on the above, since permit #75-14933 is not commercial and is domestic, I believe we do not owe the \$50 and only owe the \$50 for the commercial.

In any event, in order to not cause a delay, I have included two checks both in the amount of \$50.00. If I am correct, then perhaps the above domestic water permit does not require a fee. If this is the case, may I ask that you please return or destroy the one check and let me know?

Of course, if you have any questions or concerns, please do not hesitate to contact us.

Sincerely,

LORETT KINNICUTT-ROGERS
